Foundation Makes Memorable First Visit to Paraiba, Brazil

The first Northeastern Meeting on Veterinary Anatomic Pathology (ENEAP) was held in Areia, Paraiba State, Northeastern Brazil, between July 19 and 21.

The keynote speaker was Dr. Claudio Barros, who presented an outstanding lecture on his experiences on Veterinary Pathology in the Americas, that he has acquired over 50 years of career. Other speakers were Dr. Fabio Del Piero (LSU/CL Davis & SW Thompson Foundation) who spoke on diseases of horses; Dr. Raquel Rech (Texas A&M University) on pig diseases; Dr. Paula Giaretta (Texas A&M University) on diseases of dogs and Dr. Richard Ploeg (IDEXX – Australia), who spoke on diseases of wildlife.

A heartfelt tribute was given in honor of Dr Barros by some of his former students (Dr. Raquel Rech, Dr. Paula Giaretta and Dr. Ricardo Lucena) who shared with the audience several wonderful anecdotes of Dr. Barros long professional career.

Continued on page 2...
ENEAP was the first Veterinary Pathology event to take place in Northeastern Brazil, which allowed a large number of students of this region of the country to attend the seminar.

The meeting had approximately 200 attendees, including undergraduate and graduate veterinary students, residents, and professors, and it was extremely important to promote the study of veterinary pathology in Northeastern Brazil. Drs. Raquel Rech and Paula Giaretta gave inspiring lectures and presented themselves as female role models for the young generation of veterinary students and veterinarians.

We thank the CL Davis & SW Thompson Foundation for believing in our ideas and for supporting veterinary pathology in Northeastern Brazil!
29th Southcentral division meeting
Oct. 4-5, 2019. Galveston, TX

Dr. Raquel Rech
Texas A&M University

Pathology of Swine Diseases

We want to hear about your cases!
Attendees are invited to present a 10-15 minute report to the group of an interesting case!

Become a member of the Latin Comparative Pathology Group

**LCPG:**
- Provides Diagnostic Exercises
- Offers travel awards
- Coordinates externships in US labs for Latin Americans
- Organizes and lectures in Latin American seminars and courses

Learn more at: www.cldavis.org/lcpg_english

LCPG is the proud Latin American Division of the Davis/Thompson Foundation

Contact Francisco.carvallo@gmail.com to join LCPG!

Membership fees:
- $50 - Professionals in US, Canada and Europe
- $30 - Professionals in Latin America
- $25 - Students in US, Canada and Europe
- $15 - Students in Latin America
1st seminar of the Mexican subdivision, Davis Thompson foundation

Mexico City, October 17-18, 2019

Dr. Patricia Pesavento
Dr. Francisco Uzal
Dr. Francisco Carvallo

- Descriptive pathology
- Gross and histo correlation
- Gastrointestinal Pathology
- Microbial pathogenesis
- Evolving diseases
- Viral discovery and much more!
19th CL Davis/SW Thompson Diagnostic Pathology Symposium:
Diagnostic Pathology of Lymphoid Organs

October 25, 2019, Friday, 8am-5:45pm
Providence, Rhode Island

Dr. Matti Kiupel
Michigan State University

DVM, DrMedVet, Dipl.ACVP (Clinical)
University of Florida

Dr. Michael Garner
DVM, Dipl.ACVP
Northwest ZooPath

Contacts and information: info@eduvet.ru
The Gross Course comes to Florida!!!

From the 15th to the 19th of July, the University of Florida hosted the 46th annual Davis-Thompson Foundation gross pathology course in Gainesville, Florida. Thirty one veterinarians, from all over the United States and from various countries around the world, came to review classic diseases. Dr. Jenny Dill-Okubo, from the State of Florida’s Bronson Laboratory, Dr. Bruce Williams, and Dr. Paco Uzal joined UF faculty members, including Drs. Mike Dark, Lisa Farina, Bill Craft, Serena Craft, Rob Ossiboff, Sal Frasca, and Claus Buergelt.

While (as far as we know) attendees didn’t get to see “Florida Man”, they did review pathology of swine, rodents, lab animals, wildlife, poultry, reptiles, amphibians, fish, marine mammals, ruminants, non-human primates, and horses!
5th Uruguayan CL Davis / W Thompson Foundation Seminar
December, 2 - 3, 2019, Montevideo, Uruguay
(Digestive tract diseases & Wildlife diseases)

Venue: Veterinary School, Universidad de la Republica. Av. Alberto Lasplassos 1620, CP 11600, Montevideo, Uruguay (http://fvet.edu.uy/).

Organizers: Veterinary School, Universidad de la Republica (FVET-UdelaR), National Veterinary Laboratories (DILAVE) “Miguel C. Fubino”, National Institute of Agricultural Research (INIA), CL Davis/W Thompson Foundation (Uruguayan Sub-Division), Latin Comparative Pathology Group.

Keynote speakers (CLDavis/WThompson Foundation):
Francisco A. Uzal, DMV, MSc, PhD, DACVP, UC Davis School of Veterinary Medicine, US.
José Díaz Delgado, DMV, MSc, PhD, DACVP, Texas A&M Veterinary Medical Diagnostic Laboratory, US.

Local speakers: Kenji Yamasaki, DMV, MSc, PhD, DVCVP; Luis Albornoz, DMV, MSc, PhD; Ricardo Sierra, DMV, MSc; Ginana Feijoo, DMV; Alejandro Crampe, DMV; Enrique Nogueira, DMV; Cecilia Abreu, DMV; José Manuel Verdes, DMV, MSc, PhD; Veterinary School, Universidad de la Republica, Uruguay.

REGISTRATIONS: USS 60. Veterinary School Registration Office, UdelaR: Marco Podesta Foundation (fundacionmarcopodesta@gmail.com).

LIMITED SITE AVAILABLE: 150.
CONTACTS: Prof. Dr. José Manuel Verdes (inverdes@fvet.edu.uy).
General Pathology Review Course

Featuring:

Dr. Denise Imai
Hemodynamics

Dr. Brad Bolon
Toxicologic Pathology

And more:
Cellular responses to injury
Inflammation and repair
Immunity and hypersensitivity
Neoplasia
Microbial mechanisms of disease

Location: College of Veterinary Medicine, UC Davis, School of Veterinary Medicine Davis, California
Dates: January 23-26th 2020
More information:
http://www.cldavis.org/upcoming.html#240

2nd Egyptian meeting of the CL Davis/SW Thompson Foundation
Guest House, Cairo University, Giza 12211
1-3 March, 2020

Dr. Kevin Woolard
Neuropathology

Dr. Tawfik Aboellail
Surgical pathology and dermatopathology

Dr. Francisco Uzal
Gastroenterology
Diagnostic Exercise
From The Davis-Thompson Foundation*

Case #109 Month: October Year: 2018

Contributors: Erin K. Morris, DVM, Diplomate ACVP. WRAIR-NMRC. Forest-Glen Annex, MD.

Clinical History: This was an incidental finding in an 11-week-old Sprague-Dawley QA/QC rat.

Necropsy Findings: There were no gross lesions reported on necropsy.

Follow-up questions: Please provide tissue identification, morphologic diagnosis, and differential diagnosis(e)s.

Answers and more info here!

*The Diagnostic Exercises are an initiative of the Latin Comparative Pathology Group (LCPG), the Latin American subdivision of The Davis-Thompson Foundation. These exercises are contributed by members and non-members from any country of residence. Consider submitting an exercise!

Davis-Thompson Foundation Pathology Externship

Since 1980, the Davis-Thompson Foundation lab sites have hosted more than 125 veterinary students at 8 participating diagnostic laboratories. These students usually have a strong interest in pathology itself or zoo or poultry medicine that require a strong pathology background. The Foundation is always interested in having veterinary students apply for an externship and we would like to add more externship sites that do not usually have veterinary students, to help increase their interest and knowledge of pathology with some off-campus experience. For more information, contact Dr. Jim Britt, jobritt@sbcglobal.net; 501-912-1449.

Retiring?

Have slides left over from your recent slide seminar? Just looking to free up some storage space? The Foundation is looking for additional glass slides, kodachromes and other similar materials for its Correspondence Division and Study Centers. All materials should be well-identified with as much accompany history and discussion as possible, as these materials are expressly used for teaching. Moreover, as the Foundation is a publicly donative charity, all donated materials are tax-deductible. For more information, please contact Dr. Bruce Williams at bruce.h.williams.dvm@gmail.com.

CES 3: Carcinogenesis
March 2020 - Department of Pathology, Cambridge, UK
Registration for this symposium will open in December 2019

This Continuing Education Symposium will provide an intermediate level overview on Carcinogenesis and the challenges with current research models. Topics to be covered include (but are not limited to): How to understand the relevance/future of rodent 104 week studies; how to interpret carcinogenicity data in the risk assessment of novel chemicals and pharmaceuticals; familiarisation with the latest molecular techniques used in the research and exploration of carcinogenesis; how to differentiate spontaneous from test article-related lesions and tumours and, follow real-world case studies to refine your skills and knowledge around regulatory authority. The format will include presentations, case histories and active participation of delegates. The Continuing Education Symposium will be of 3 days duration and the programme will be arranged such that each individual day can be attended as stand-alone CPD if desired. For more information on any of these meetings, keep checking the website - http://www.bstp.org.uk/events or contact the BSTP Secretariat - bstpoffice@aol.com
Upcoming STP Trainee Award Deadlines

The Daniel Morton and Laura Dill Morton Scholarship Award Procedures

Application Deadline: November 1

The Daniel Morton and Laura Dill Morton Scholarship was established in 2016 to provide an award annually to an outstanding student/trainee with an interest in toxicologic pathology. Students with a DVM or equivalent degree enrolled in a full-time graduate or residency program who demonstrate commitment to toxicologic pathology and high potential for a successful career in this field are encouraged to apply. Applicants must submit a personal statement describing current research activities, interests and activities related to toxicologic pathology, and professional goals, two professional letters of recommendation with one letter from her/his academic advisor, and Curriculum Vitae. Applicants will be judged based on level of demonstrated interest in the field of toxicologic pathology, letters of recommendation and CV. A monetary award and engraved plaque will be presented at the Awards Ceremony during the STP Annual Meeting. Award acknowledgement will be included on the STP website and in the annual meeting issue of Toxicologic Pathology. Daniel Morton and Laura Dill Morton Scholarship Application

IATP/STP Charles Capen Trainee Award Procedures

Application Deadline: November 1

The Charles Capen Trainee Award given by the International Academy of Toxicologic Pathology (IATP) and the Society of Toxicologic Pathology (STP) recognizes Dr. Charles Capen and his legacy as a researcher, teacher, and mentor to the pathology and toxicology communities spanning more than four decades. Dr. Capen was recognized worldwide as an exceptional leader in veterinary and biomedical research. He was a highly regarded mentor to numerous graduate students and postdoctoral scientists. His students and trainees are now leaders throughout academia, government and industry. The awardee will receive a cash award in the amount of $2000.00 to further his or her training and education in the field of toxicologic pathology, plus complimentary STP annual meeting registration and complimentary STP student membership for the following year. He or she will be recognized during the Awards Ceremony at the STP Annual Meeting. Applicants are required to submit a published (or accepted for publication) manuscript from a peer-reviewed journal consisting of original work involving clinical or experimental research that relates to toxicologic pathology. IATP/STP Charles Capen Trainee Award Application
It was a night of smiles and photographs, as UCDavis' Linda Lowenstine and Katie Colgrove attest.
