Univ. of Minnesota hosts 40th Annual Gross Pathology Review Course

The 40th annual Gross Pathology Review Course was held at the College of Veterinary medicine, University of Minnesota in St. Paul from July 8-12 of this year. Pathologists, pathologists in training, and faculty members flew in from 22 states and 5 countries to enjoy a full week of gross pathology (with no histologic images).

Faculty members at this year’s course included Dr. Dalen Agnew, Michigan State University (Pathology of Exotic Species, Wildlife, and Fish), Dr. Fabio Del Piero, Louisiana State University (Diseases of Ruminants), Dr. Kim Newkirk, Univ. of Tennessee (Diseases of the Horse), Dr. Jey Koehler, Auburn University (Diseases of the Dog and Cat), Dr. Bruce Williams, Joint Pathology Center (Diseases of Non-Human Primates), Dr. Krista La Perle, Ohio State University (Diseases of Lab Rodents and Rabbits), Dr. Greg Stevenson, Iowa State University (Diseases of Swine) and our local host, Rob Porter (Disease of Poultry). While the lectures, according to reviews, were universally excellent, Dr. Newkirk’s lecture on the Pathology of the Horse won the Samuel W. Thompson Lectureship Award for 2013, an award that will be presented at the 2013 Davis Foundation Award Reception at the ACVP meeting in Montreal.

As impressive as 40 hours of excellent lecture was, course participants will take home many other excellent memories of this course. Local host Rob Porter and the members of the Department of Pathology not only put on an excellent course, but also raised the bar of local hospitality to a level that will be difficult for host universities to match. In addition to providing continental breakfast, healthy and satisfying lunches for a wide range of appetites, and snacks and coffee all day long; Dr. Porter and his residents went above and beyond to show the best side of the Univ of Minnesota.

In addition to visits from the Dean, and the head of the Diagnostic Laboratory to welcome our attendees, the staff of the Veterinary Diagnostic Lab turned up on Thursday afternoon, to put on a good old-fashioned ice-cream social for the participants. Moreover, Dr. Porter arranged for a tour of the UM Raptor Rehabili-
Gross Review Course (...cont. from page 1)

tation Center, as well as a Wednesday evening social event at a local restaurant.

And, with kudos and a big thank you to Dr. Rob Porter, his residents, and the staff of the UM Veterinary Diagnostic Lab, we now turn our attention to next year’s Gross Pathology Review Course, to be held at Michigan State University in mid-July 2014. See you there!

Latin Comparative Pathology Group Travel Award

The Foundation’s Latin American Division/Latin Comparative Pathology Group (LCPG) encourages professionals and students in veterinary pathology who are teaching, working or studying in Latin America, to participate and present their research work in scientific meetings. The annual LCPG Travel Award is intended to support the development of the discipline of veterinary pathology. The recipient for the travel award will be required to attend either the American College of Veterinary Pathologist (ACVP) or American Association of Veterinary Laboratory Diagnosticians (AAVLD) annual meeting.

- The recipient will be awarded a US$500 grant from the LCPG to help defray travel and lodging costs associated with attending the pathology meeting.
- Applications must be received no later than 30 September 2013.
- The recipient of the award will be announced by email no later than 30 October 2013.
- Applicants must have an accepted abstract in the ACVP or AAVLD meeting (poster and/or oral presentation).
- The awardee will be required to present the results of his/her research in a LCPG Session at the Annual meeting.
- The LCPG will not send any letter in support of VISA (immigration) requirements.
- Contact Dr. Ana Alcaraz (aalcaraz@westernu.edu) if you have any questions.
23rd Annual Southcentral Division Meeting
Galveston, Texas
October 4 – 5, 2013

Join us at the beautiful San Luis Conference Center on sunny Galveston Island!
Accomodations next door at the Holiday Inn Resort on the Beach

• Guest Lecture by Dr. Fabio del Piero
  “Indirect immunohistochemistry for the study of the pathogenesis and the diagnosis of infectious diseases”
• Anatomic, clinical pathology and lab animal case reports welcome
• Going digital this year, need only submit two slides and electronic write-ups

Visit: http://www.cldavis.org/courses/upcoming.html • Course director: Dr. James Britt (501) 907-2435; jbritt@alpc.ar.gov

“This course has been submitted (but not yet approved) for 10 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education.”
SOUTHCENTRAL DIVISION Meeting, Oct. 4-5, 2013

Need some CE but can’t get to Montreal this year? Then the C.L. Davis South Central Division meeting in Galveston, Texas, October 4-5, is for you! In addition to interesting case reports, Dr. Fabio del Piero will be presenting “Indirect immunohistochemistry for the study of the pathogenesis and the diagnosis of infectious diseases.” Dr. del Piero will also be giving a 1 hour comparative pathology mock exam. This is a great opportunity for trainees (and the rest of us) to sharpen our diagnostic skills. The meeting is held in the San Luis Resort Conference Center and accommodations are next door at the beautiful Holiday Inn Resort on the Beach. As always, our group dinner is at Landry’s Seafood. This course has been AAVSB RACE approved for 10 hours of CE. Case reports are welcomed, or just come join us for some scholarship, sun and seafood. See the flyer/registration form in this newsletter, or contact Course Director, Jim Britt 501-907-2435; jbritt@alpc.ar.gov, for more information.

This program was reviewed and approved by the AAVSB RACE program for 10 hours of continuing education in jurisdictions which recognize AAVSB RACE approval. Please contact the AAVSB RACE program at race@aavsb.org if you have any comments/concerns regarding this program’s validity or relevancy to the veterinary profession.”
First international seminar on pathology and diagnostics of the most common diseases of production animals, Santo Domingo, Dominican Republic, 22-25 July 2013

The “First international seminar on pathology and diagnosis of the most common diseases of production animals”, of the C.L. Davis DVM Foundation was held 22-25 July 2013 at The Dominican Association of Dairy Producers, in Santo Domingo, The Dominican Republic.

The course was organized and coordinated by Drs. Elipido Chamizo Pestaña and Cecilia Fonseca, and Lic. Yolanda Acta and Leiko Ortiz (all from Universidad Central del Este, Dominican Republic) and sponsored by the Latin Comparative Pathology Group (the Latin American Division of the CL Davis Foundation). More than sixty enthusiastic pathologists, diagnosticians, veterinary practitioners and students attended the course. Lectures were given by Drs. Ana Alcaraz (Western University of Health Sciences), Leslie Woods (University of California), Donal O’Toole (University of Wyoming) and Francisco Uzal (University of California). This was the first CL Davis course in the Caribbean region and the first pathology course in the Dominican Republic.

In addition to presentations on gross lesions and toxic plants, the seminar involved necropsy demonstrations. The participation of the attendees was outstanding during the course and demonstrated once again the “hunger to learn” that exists amongst Latin American veterinarians, and highlighting the need for continuing education programs such as those provided by the CL Davis Foundation. The Universidad Central del Este is interested in developing a one year certification course for veterinarians to increase their familiarity with pathology.

A day-seminar of the NE sub-division of the Davis Foundation will take place on Friday, November 1, 2013, at the Novartis Campus, One Health Plaza, East Hanover, NJ, 07936. The topic is “Toxicologic Pathology and Preclinical Development of Antibody Drug Conjugates”. The seminar is co-promoted by the STP. Details will follow. For more info, contact either Dr. Kapil Vashisht (kapil.vashisht@novartis.com tel. 862-778-6088), or Dr. Zadok Ruben (zruben@patoximed.com tel. (908) 233-9740)

Spend “A Day with Brian Wilcock”
at the 2013 C.L. Davis/ACVP Diagnostic Pathology Workshop

16 November 2013
Montreal Convention Center
Montreal, QC, Canada

Brian Wilcock DVM, MS, PhD
Owner, Histovet Surgical Pathology
Professor of Pathology,
Ontario Veterinary College
Author, “Surgical Pathology of the
Dog and Cat”
“Pathology of Eye and Ear” in
Jubb, Kennedy and Palmer, ed. 5
Awardee:
Norden Teach Award
DLT Smith Faculty Award,
University of Guelph

The first part promises to be a truly fun-filled and irreverent talk entitled “If Plato Were a Pathologist...” and will examine the validity of our ongoing practice of imposing classifications based on seemingless variation in histologic appearance – i.e., the classic argument of “splitting” versus “lumping”.

In his attempt to bring order from increasing diagnostic chaos, Dr. Wilcock will bring many examples from the field of surgical oncology, such as mammary, adnexal, and vascular tumors, into play.

The second half of the day will take us to another area of Dr. Wilcock’s expertise, entitled “Clinically Relevant Ocular Pathology for Everyone.” By illustrating five or six fundamental principles of ocular pathology, Dr. Wilcock will perform the removing the fear that many of us feel when confronted with “globes of complex pathology.”

Don’t miss a day of lecture that will challenge traditional your long-held principles, illustrate a new way of looking at surgical pathology, and make you laugh all at the same time!

Tuition is $195. Attendees receive 8 hours of amazing lecture, RACE-accreditted CE, break food, and a copy of the Ocular and Otic Tumors, from the World Health Organization Series on Tumor of Domestic Animals.

Registration for this workshop is available through the American College of Veterinary Pathologists’ website at http://www.acvp.org as part of your 2013 ACVP Conference package.
7th C.L. Davis Argentine Division Meeting

November 26 and 27, 2013
Facultad de Ciencias Veterinarias,
Universidad Nacional de La Plata.

Featured Speakers:
MARGARET MILLER, DVM, PHD, DACVP
“Diseases of Dogs and Cats”
“Teaching Veterinary Pathology”

JOSE RAMOS-VARA, DVM, PHD
“Immunohistochemistry”

Bone and Muscle Pathology

BONE AND MUSCLE PATHOLOGY – systems that cause substantial trepidation to most veterinary pathologists

These are important diseases but ones that most of us see infrequently

Help is at hand – in the form of this year’s ASVP Conference in Adelaide...

• Professor Keith Thompson from Massey University, New Zealand and author of the bone and joint section in “Pathology of Domestic Animals” will provide a comprehensive overview of bone pathology, including a guide to preparation of optimal bone sections

• Professor Peter Windsor from The University of Sydney veterinary school will cover inherited & nutritional bone disorders of Australian livestock.

• Professors Beth Valentine and Barry Cooper from Oregon State University veterinary school in the US will join us to present an in-depth coverage of muscle pathology, with illustrative material from small and large animal cases and hints for preparation of optimal muscle sections and use of a range of diagnostic modalities

• Dr Caroline Smith, a medical pathologist with SA Pathology in Adelaide, will present some human myopathy cases, highlighting the important role of immunohistochemistry in the elucidation of diagnoses

Please join us in Adelaide, Australia in October to experience this musculoskeletal feast.

REGISTRATIONS ARE NOW OPEN:

For the full program, venue details, further information and to register please visit the conference page on our website: http://www.asvp.asn.au/conferences

Registration Fees:

• Single day registration:
  - Members: $180.00
  - Non Members: $190.00
  - Student/Concession: $100.00

• Three Day registration:
  - Members: $540.00**
  - Non Members: $590.00
  - Student/Concession: $265.00

• Conference Dinner (Sat): $65.00

** Early Bird discount price of $520 available until 30/6/13 for ASVP members for three day registration.

Registrations close on 20/9/13

BOOKSTORE ORDERS

We occasionally have problems with overseas credit card orders through the bookstore. If you find you cannot place your order please email, call or fax the Foundation at phone: 847-367-4359, fax: 847-247-1869, email: cldavisdvm@comcast.net. Make sure you include your name, address, phone, email address and credit card number with expiration date and we will ship your purchase immediately.

CALENDAR OF UPCOMING EVENTS

**Sept 2013**
- 9/2-4: 2013 European Division Meeting, London UK
- 9/7: International Society of Veterinary Dermatology, London UK

**Oct 2013**
- 10/4-5: 23rd Annual Meeting of the CLD Southcentral Division, Galveston TX
- 10/11-13: Australian Society for Veterinary Pathology, Bone and Muscle Pathology, Adelaide, South Australia
- 10/18: CLD/AAVLD 13th Annual Diagnostic Pathology Symposium: the Veterinary Pathologist and Forensics

**Nov 2013**
- 11/16: 11th Annual ACVP/CLD Workshop: A Day with Brian Wilcock, Montreal, Canada
- 11/26-27: 7th Argentine Seminar of the Davis Foundation, La Plata, Argentina
