22nd Annual Descriptive Course Held at Auburn College of Veterinary Medicine

The 22nd U.S. iteration of the Foundation’s Descriptive Veterinary Pathology Course was held from 3-7 June on the beautiful campus of Auburn University in Auburn, Alabama. This year’s course took 60 participants on a 5-day intensive course of descriptive techniques applicable to a wide range of daily pathology tasks – description of histologic specimens, gross images, electron micrographs, cytologic specimens, and even immunohistochemical stains.

The course began in 1992 at the Armed Forces Institute of Pathology (AFIP), where it was the brainchild of Dr. John Pletcher, ACVP councilor and exam committee member, who recognized a need for formal training in descriptive techniques for trainees sitting the annual certification exam of the American College of Veterinary Pathologists. Primarily a style course, these techniques are important in teaching the “art” of pathology – consistent slide review, logical analysis and interpretation, and the ability to boil down a maelstrom of observations into a well-constructed paragraph.

With the inception of certification exams in Europe and India, and the globalization of veterinary pathology training, the course has taken on an increasingly international feel. First introduced into Europe in 1996, the course visits Europe approximately biennially (with the next course slated in 2014), and more recently, South America on an annual basis. In 2012 the first Spanish-language descriptive course was held in Argentina. The course has been held in India, and small mini-versions of the course continue to be held on an ad hoc basis as long-time faculty members visit universities in the U.S. and abroad by invitation, focusing on areas of the curriculum as desired by the host facility.

The full course is a rigorous experience, according to the faculty (the majority of whom participated as trainees themselves). Following two grueling 10-hours days of didactic lecture, the remaining three days are filled with mock examinations, where participants have an opportunity to put the (continued on page 2)
Descriptive Course (...cont. from page 1)

course’s precepts and concepts into practice.

In addition to three days of exams and reviews, the course features a four-hour review of clinical pathology. In the European course, this block is usually replaced by a review of the “comprehensive” section of the European certification examination.

This year’s course boasted long-time faculty members Dr. Paul Stromberg and Bruce Williams, as well as returning faculty member Dana Scott and first-timers Shannon Lacy, and Jey Koehler (who served double duty as local host). The outstanding venue at the Auburn College of Veterinary Medicine was in top shape and our local hosts provided non-stop coffee, snacks, and best of all, healthy catered lunches that appealed to a wide variety of tastes, including a growing number of vegetarian pathologists. On Wednesday, course attendees met at The Vault for a small social event which was very enjoyable.

Plans are underway for next year’s courses in Europe and the U.S. Watch upcoming newsletters for details and dates.

Latin Comparative Pathology Group Travel Award

The Foundation’s Latin American Division/Latin Comparative Pathology Group (LCPG) encourages professionals and students in veterinary pathology who are teaching, working or studying in Latin America, to participate and present their research work in scientific meetings. The annual LCPG Travel Award is intended to support the development of the discipline of veterinary pathology. The recipient for the travel award will be required to attend either the American College of Veterinary Pathologist (ACVP) or American Association of Veterinary Laboratory Diagnosticians (AAVLD) annual meeting.

- The recipient will be awarded a US$500 grant from the LCPG to help defray travel and lodging costs associated with attending the pathology meeting.
- Applications must be received no later than 30 September 2013.
- The recipient of the award will be announced by email no later than 30 October 2013.
- Applicants must have an accepted abstract in the ACVP or AAVLD meeting (poster and/or oral presentation).
- The awardee will be required to present the results of his/her research in a LCPG Session at the Annual meeting.
- The LCPG will not send any letter in support of VISA (immigration) requirements.
- Contact Dr. Ana Alcaraz (aalcaraz@westernu.edu) if you have any questions.
40th Annual Gross Morbid Anatomy of Animals

Presented by the Charles Louis Davis, DVM Foundation
8-12 July 2013  University of Minnesota, Saint Paul, MN

Come join us at one of the most renowned pathology courses in the world - all species, all systems, and international experts presenting 36 hours of great CME. Each year, this in-depth course draws over 120 pathologists, lab animal practitioners, veterinary clinicians, and students from around the world. Don’t miss out in 2012!

Course Director:
Bruce Williams, DVM, DACVP
Email: Williams@clldavis.org

For more information, visit:
http://www.clldavis.org/courses/upcoming.html

*This course has been submitted that not yet approved for 36 hours of continuing education credit in jurisdictions which recognize AAAPR RACE approval. However, participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call Jannet Birt, DVM at 504-587-2445 for further information.*
23rd Annual Southcentral Division Meeting
Galveston, Texas
October 4 – 5, 2013

Join us at the beautiful San Luis Conference Center on sunny Galveston Island!
Accommodations next door at the Holiday Inn Resort on the Beach

• Guest Lecture by Dr. Fabio del Piero
  “Indirect immunohistochemistry for the study of the pathogenesis and the diagnosis of infectious diseases”

• Anatomic, clinical pathology and lab animal case reports welcome

• Going digital this year, need only submit two slides and electronic write-ups

Visit: http://www.cldavis.org/courses/upcoming.html • Course director: Dr. James Britt (501) 907-2435; jbritt@alpc.ar.gov

“This course has been submitted (but not yet approved) for 10 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education.”
2013 CURRENT LAB ANIMAL SCIENCE SEMINAR

2013 PATHOLOGY OF LAB ANIMALS COURSE

WALTER REED ARMY INSTITUTE OF RESEARCH - 3-9 August 2013

Pathology of all Major Lab Species • Social Enrichment of Primates • Pathology of Laboratory Fish • DoD & VA Grant Systems • Pathology of Mini-Pigs • The Ag Guide • Pathology of the “Irrelevant Rodents” • USDA and AALAC • Lab Animal Pathology Mock Gross Exam • and Much, Much More!

Visit: http://www.oldavis.org/courses/lapromps.html

Tuition: CLASS only $350
POLA only $475
Combined CLASS/POLA - $700

***Uniformed Vets or Furloughed Gov't vets get a $150 discount!!!***

This course has been submitted (but not yet approved) for 36 hours of continuing education credit in jurisdictions which recognize AAVS/B RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Spend “A Day with Brian Wilcock”
at the 2013 C.L. Davis/ACVP Diagnostic Pathology Workshop

16 November 2013
Montreal Convention Center
Montreal, QC, Canada

Brian Wilcock DVM, MS, PhD
Owner, Histovet Surgical Pathology
Professor of Pathology,
Ontario Veterinary College
Author, “Surgical Pathology of the
Dog and Cat”
“Pathology of Eye and Ear” in
Jubb, Kennedy and Palmer, ed. 5
Awardee:
Norden Teach Award
DLT Smith Faculty Award,
University of Guelph

The first part promises to be a truly
fun-filled and irreverent talk entitled
“If Plato Were a Pathologist...” and
will examine the validity of our
ongoing practice of imposing
classifications based on seemingless
variation in histologic appearance –
i.e., the classic argument of
“splitting” versus “lumping”.

In his attempt to bring order from
increasing diagnostic chaos, Dr.
Wilcock will bring many examples
from the field of surgical oncology,
such as mammary, adnexal, and
vascular tumors, into play.

The second half of the day will take
us to another area of Dr. Wilcock’s
expertise, entitled “Clinically
Relevant Ocular Pathology for
Everyone.” By illustrating five or six
fundamental principles of ocular
pathology, Dr. Wilcock will perform
the removing the fear that many of
us feel when confronted with
“globes of complex pathology.”

Don’t miss a day of lecture that will
challenge traditional your long-held
principles, illustrate a new way of
looking at surgical pathology, and
make you laugh all at the
same time!

Tuition is $195. Attendees receive 8 hours of amazing
lecture, RACE-accredited CE, break food, and a copy of
the Ocular and Otic Tumors, from the World Health
Organization Series on Tumor of Domestic Animals.

Registration for this workshop is available
through the American College of Veterinary
Pathologists’ website at http://www.acvp.org as
part of your 2013 ACVP Conference package.
PRIMERA REUNIÓN CHILENA DE HISTOPATOLOGÍA VETERINARIA

26 Y 27 DE AGOSTO 2013
Escuela de Medicina Veterinaria
Facultad de Recursos Naturales y Medicina Veterinaria
Universidad Santo Tomás
Av. Carlos Schorr 255
Talca.

Costo:
Contribuidor nacional: $25.000
Contribuidor internacional: U$80.00
(Incluye: envío de cajas con láminas, disco resumen, cena, coffee breaks)
Asistente nacional: $20.000
Asistente internacional: U$60.00
(Incluye: disco resumen, cena, coffee breaks)
Estudiante de pregrado: $10.000 (incluye disco resumen, coffee breaks).

METÓDICA
Como contribuidor, debes enviar 30 secciones histológicas de un caso interesante antes del 15 de Julio de 2013, en conjunto con la siguiente información:
1. Contribuidor/Institución
2. Reseña
3. Historia clínica
4. Hallazgos macroscópicos
5. Descripción histopatológica
6. Diagnóstico morfológico
7. Discusión
8. Referencias
9. Agradecimientos, para ser incluidos en el disco resumen de la jornada. Luego, recibirás una caja con todas las secciones a examinar y sus historias, para que las revises y saques tus propias conclusiones. Finalmente, nos reuniremos en Talca, Chile para presentar y discutir estos casos. Todas las especies animales son bienvenidas!

Nuestro invitado de honor será el Dr. Francisco Uzal MV, PhD, DACVP, quien nos presentará “Clostridiasis en equinos” y “Patología macroscópica del sistema digestivo de rumiantes”, además de enviar un caso para revisar.

Organizador: Francisco Carvallo MV, DSc, DACVP,
Av Carlos Schorr 255, Talca, Chile. Fono: (56) 71-2342355.

Coordinadores:
Francisco Carvallo MV, DSc, DACVP, fcarvallo@santotomas.cl
Gabriel Lamilla MV, MSc, glamilla@santotomas.cl

Organiza y patrocina:
Escuela de Medicina Veterinaria, Facultad de Recursos Naturales y Medicina Veterinaria, Universidad Santo Tomás, sede Talca.

Auspician:
Sociedad Chilena de Patólogos Veterinarios, A.G.
Latin Comparative Pathology Group
C.L. Davis Foundation
7th C.L. Davis Argentine Division Meeting

November 26 and 27, 2013
Facultad de Ciencias Veterinarias,
Universidad Nacional de La Plata.

Featured Speakers:
Margaret Miller, DVM, PhD, DACVP
"Diseases of Dogs and Cats"
"Teaching Veterinary Pathology"

Jose Ramos-Vara, DVM, PhD
"Immunohistochemistry"

DIARY ALERT

AUSTRALIAN SOCIETY FOR VETERINARY PATHOLOGY
2013 SCIENTIFIC CONFERENCE

+ 11 – 13 OCTOBER
VENUE:
Stamford Plaza Hotel
150 North Terrace
ADELAIDE, South Australia

Bone and Muscle Pathology

Bone and Muscle Pathology – systems that cause substantial trepidation to most veterinary pathologists

These are important diseases but ones that most of us see infrequently

Help is at hand – in the form of this year’s ASVP Conference in Adelaide...

- Professor Keith Thompson from Massey University, New Zealand and author of the bone and joint section in “Pathology of Domestic Animals” will provide a comprehensive overview of bone pathology, including a guide to preparation of optimal bone sections

- Professor Peter Windsor from The University of Sydney veterinary school will cover inherited & nutritional bone disorders of Australian livestock.

- Professors Beth Valentine and Barry Cooper from Oregon State University veterinary school in the US will join us to present an in-depth coverage of muscle pathology, with illustrative material from small and large animal cases and hints for preparation of optimal muscle sections and use of a range of diagnostic modalities

- Dr Caroline Smith, a medical pathologist with SA Pathology in Adelaide, will present some human myopathy cases, highlighting the important role of immunohistochemistry in the elucidation of diagnoses

Please join us in Adelaide, Australia in October to experience this musculoskeletal feast.

REGISTRATIONS ARE NOW OPEN:
For the full program, venue details, further information and to register please visit the conference page on our website: http://www.asvp.asn.au/conferences

Registration Fees:

- Single day registration:
  Members: $180.00
  Non Members: $190.00
  Student/Concession: $100.00

- Three Day registration:
  Members: $540.00**
  Non Members: $590.00
  Student/Concession: $265.00

- Conference Dinner (Sat): $65.00

** Early Bird discount price of $520 available until 30/6/13 for ASVP members for three day registration.

Registrations close on 20/9/13

Society of Toxicologic Pathology

STP Modular Education Series Inaugural Course: Neuropathology

July 21-24, 2013
Chauncey Conference Center
One Chauncey Road
Princeton, NJ 08541

Course Objective
The Society of Toxicologic Pathology (STP) is offering the inaugural course in the Modular Education Series which will focus on Neuropathology. The first course is planned in partnership with the British Society of Toxicological Pathology (BSTP) and with help from the STP Special Interest Group in Neuropathology (SIGN).

Course Description
The BSTP has offered a Modular Education Series for many years offering two to three courses a year focusing on specific organ systems. In bringing these modular courses to the United States, the STP will offer these same opportunities to pathologists who might not otherwise be able to attend those offered by the BSTP. These courses will include both didactic lectures and practical data and slide review sessions. Microscopic evaluation of histologic sections will be done using whole-slide digital pathology images and practical evaluation/interpretation of toxicologic pathology data will be emphasized.

Who Should Attend
The modular courses are designed primarily for novice practitioners of toxicologic pathology. However, pathology residents with an interest in this specialty or experienced pathologists who desire a refresher course are welcome. In addition, non-pathologists with an interest in the normal histology, pathology or toxicology of the nervous system will also benefit from this module.

Location and Lodging
The modular course will be held in central New Jersey very close to Princeton University at the Chauncey Conference Center, Princeton, New Jersey. This facility is close to the US Eastern Mid-Atlantic Region and has abundant parking. Attendees who need to fly to this event are encouraged to use the Newark-Liberty Airport. Princeton is readily accessible from the airport via either Shuttle Service (Olympic Airporter) or the New Jersey Transit Train System (part of the NE Amtrak Corridor) to the Princeton Junction train station. A shuttle from the train station to/from the conference center is readily available by calling the Chauncey Conference Center. The Philadelphia airport is also within a reasonable drive of the facility; however, public transportation is not directly available between this airport and Princeton.

When registering for this event, a carpool request will be made available and conference organizers will put attendees in contact with those interested in this option. Once at the event, there will be no requirement for transportation. The lodging, dining, and course location are all immediately adjacent to each other. Exercise and outdoor recreation facilities are also readily available to all attendees.

Faculty
Mark T. Butt, DVM, DACVP, Toxic Path Specialists
Kerry Schaefer, DVM, PhD, DACVP, Vet Path Services

The course registration fee is all-inclusive of lodging, meals, and course materials. The meals will begin with a reception on Sunday evening, July 21, 2013 and conclude with a lunch on Wednesday, July 24, 2013. Registration is limited. To ensure attendance of the course, early registration is encouraged. The early registration deadline is April 20, 2013. Online registration is available at www.toxpath.org.

*A letter of verification from a department chair must accompany student registration.

Continuing Education
This program has been submitted (but not yet approved) for 21 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however, participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education.

Cancellation Policy
If you must cancel your registration, a written request must be received by STP Headquarters no later than June 1, 2013. The registration fee will be refunded less a $25 processing fee. No refunds will be issued after June 1, 2013. STP reserves the right to cancel the course if necessary. In the event of a course cancellation, all registrants will receive a full refund.

Visit www.toxpath.org for more details.
