Dana Scott takes over as Davis Foundation President

For the first time in 15 years, the C.L. Davis Foundation has a new President. Dana Patrick Scott, staff pathologist at the National Institute of National Institute of Allergy and Infectious diseases (NIAID), Rocky Mountain Laboratories, assumes this position, bringing over twenty years as a veterinary pathologist and teacher to the role.

Dr. Scott is a 1987 graduate of the Washington State University College of Veterinary Medicine College of Veterinary Medicine, and prior to joining the NIH, had a full and productive career in the U.S. Army. COL Scott completed his residency in veterinary pathology at the Armed Forces Institute of Pathology, achieving diplomacy in the ACVP in 1997. He served as the Training Officer in the AFIP’s Dept. of Veterinary Pathology, and subsequently as the Chief of Research Support at the US Army Medical Research Institute.

Dr. Scott currently works at the NIH’s Rocky Mountain Laboratories as a pathologist specializing in viral infections, with numerous recent publications in Veterinary Pathology, Science, and Emerging Infectious Diseases on topics including Nipah virus, Ebola virus, and MERS-CoV infection.

Dr. Scott’s interaction and history with the Davis Foundation is lengthy and varied, as well. Dana has been a featured lecturer and instructor at the Descriptive Veterinary Pathology Course in the US and abroad, and has lectured at the Foundation’s Gross Pathology review courses as well over the years. He has previously served as the Foundation’s corporate secretary, and currently serves on the Foundation’s Faculty of Discussants.

On a personal note, Dr. Scott lives in Montana, the state he grew up in with his wife of 28 years, Grace, also a veterinarian. He has three children, Renn (a mechanical engineer in California) Seth (finishing his degree in bioengineering at Montana State University, and a daughter Brianne, living in Harlowlton, MT. Dana and Grace also have three grandchildren. In his spare time, Dr. Scott enjoys fly fishing and training hunting dogs.

The Foundation is greatly pleased to welcome Dr. Scott, and look forward to years of his leadership and vision. A message from Dr. Scott to the Foundation’s members around the world is on page 3.
This year, over 75 pathologists, residents, clinicians, and veterinary students gathered in Orlando, Florida, at Disney on 19 October, 2014 for the 21st annual CL Davis/American Association of Zoo Veterinarians Zoo and Wildlife Pathology Conference. A favorite CL Davis speaker, Dr. Judy St. Leger was the keynote speaker with her presentation “The other side of the slide: integrating clinical and anatomic pathology,” providing an overview of how clinical pathologists and anatomic pathologists can collaborate, including a review of cytology, hematology, and urinalysis. Dr. St. Leger’s presentation was followed by a series of targeted case studies highlighting the collaboration between clinical and anatomic pathology involving a seal lion, pallas cat, bearded dragon, loris, loggerhead turtle, crevice spiny lizard, penguin, knobby sea star, and white rhinos. Some were “team presentations” involving both clinical and anatomic pathologists. The session concluded with six “lightning cases” (short 8 minute presentations) covering an anhinga, turkey, gazelle, tortoise, moose, and a cockatoo.

We’re already planning next year’s workshop to be held in Portland, Oregon. The topic will be collaborative cases in which both supplementary imaging (e.g. MRI, CATscan, radiology, ultrasound) and histopathology played a key role in the diagnosis. We hope to have some team presentations again as we did this year!
Message from Foundation President, Dana Scott:

I am privileged and honored to be in a position to give back to such a great organization and serve as President of the CL Davis Foundation. When I first started my career in veterinary pathology it was the CL Davis Foundation that provided me with fundamentals in laboratory animal pathology, gross pathology of domestic animals, and descriptive pathology.

I first want to thank Dr. Bruce Williams for his tireless service to the foundation. It is due to Bruce’s energy, drive and commitment to the education and training of pathologists worldwide that the CL Davis Foundation has developed its’ outstanding reputation for quality education programs and opportunities. I will do my best to continue his level of dedication and productivity.

Of course, Bruce was not alone in delivering the Foundation’s programs. There is no “brick and mortar” Foundation; the CL Davis foundation is a group of people who share a common belief in making veterinary pathology better by making education available and relevant. Everyone who has, or will, volunteer to deliver a lecture, manage a course, or give a resident guidance under the auspices of the Foundation enhances our profession and builds public health and medical infrastructure around the world. I look forward to working with all the members, trustees, and board members.

The role of the veterinary pathologist is continuously evolving and the training and education of comparative pathologists must change with it. I am confident that the Foundation will continue to adopt new technologies, new partnerships, and new priorities to continually improve how we supply the students of veterinary pathology with pertinent and timely information. I am always available to discuss new ideas and opportunities and I look forward to working with all of you to continue the excellence in education that the CL Davis Foundation represents.
2015 Descriptive Veterinary Pathology Course

Western College of Veterinary Medicine
University of Saskatchewan
Saskatoon, SK CANADA
22-26 June 2015

Lectures include:

- Descriptive Techniques in:
  - Gross Pathology
  - Microscopic Pathology
  - Cytology
  - Electron Microscopy
  - Immunohistochemistry
- Review of Clinical Pathology
- Gross-Microscopic Correlations
- 6 Practical Examinations
  - Gross Exams
  - Histo Exams
  - 4 exams are faculty-graded for extra feedback

Program Director:
Dr. Bruce Williams, DVM, DACVP
Joint Pathology Center
301-467-4024
Email: Williams@clavis.org

This program has been submitted (but not yet approved) for 38 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call (Dr. James Britt, 601-912-1449) for further information

For more information, including tuition, venue, and hotel information, please visit http://www.cldavis.org/courses/upcoming.html
WNPRC Lab Animal Medicine and Pathology Seminar with International Mock-ACLAM Exam*  

Sponsored by C.L. Davis DVM Foundation and the Wisconsin National Primate Research Center  

May 7th to 9th, 2015  
Madison, WI  

Program Directors:  
Andres Mejia DVM, MS, DACLAM  
amejia@primate.wisc.edu  

Christina Cruzen DVM, DACLAM  
ccruzen@ucdavis.edu  

Lecture topics include:  
Mice and non-human primates, other primary and secondary species  
AVMA Panel on Euthanasia  
USDA, OLAW, and GLP regulations  
International Mock Exam Coalition Examination  

For more info: http://www.cldavis.org/upcoming.html  

This program has been submitted (but not yet approved) for 22 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call (Dr. James Britt, 601-912-1449) for further information.
42nd Annual Gross Pathology Review Course

Presented by the Charles Louis Davis, DVM Foundation
13-17 July 2015  University of Tennessee

Come join us at one of the most renowned pathology courses in the world - all species, all systems, and international experts presenting 36 hours of great CME. Each year, this in-depth course draws over 100 pathologists, lab animal practitioners, veterinary clinicians, and students from around the world. Don’t miss out in 2014!

Course Director:
Bruce Williams, DVM, DACVP
Email: Williams@clldavis.org

For more information, visit:
http://www.clldavis.org/courses/upcoming.html

“This program has been submitted (but not yet approved) by the AAVSB RACE program for 40 hours of continuing education in jurisdictions which recognize AAVSB approval; however, participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call Dr. James Brat 503-932-1140 for further information.”
1st ANNUAL C.L. DAVIS MIDDLE EASTERN DIVISION
DIAGNOSTIC PATHOLOGY SYMPOSIUM:
PATHOLOGY OF DOMESTIC AND LABORATORY ANIMALS
21-25 MARCH, 2015 - CAIRO, EGYPT

Tawfik Abboellail, DVM, PHD, DACVP
Colorado State University
Diseases of Ruminants

Corrie Brown, DVM, PHD, DACVP
University of Georgia
Diseases of Avian Species

Donald Meuten, DVM, PHD, DACVP
North Carolina State University
Diseases of Horses
Clinical Pathology

Bruce Williams, DVM, DACVP
Joint Pathology Center
Diseases of the Dog and Cat
Diseases of Laboratory Rodents

Course Directors:
IMAN SHAHEED, PH.D., VICE DEAN FOR RESEARCH, FACULTY OF VETERINARY MEDICINE,
CAIRO UNIVERSITY  imanshaheed@yahoo.com
TAWFIK ABOEELLAJ, DVM, PhD, DACVP, ASSISTANT PROFESSOR, ANATOMIC PATHOLOGY,
Colorado State University  tawfik.abboellail@colostate.edu

2015 Northeast Veterinary Pathology Conference
University of Pennsylvania
School of Veterinary Medicine
2-3 May 2015

HILL PAVILION, UPENN SCHOOL OF VET MED, PHILADELPHIA, PA
CASE PRESENTATIONS – GUEST LECTURES – 10 HOURS CE
For more info, visit:  http://www.cldavis.courses/upcoming.html
or contact Course Director, Angela Brice, abrice@upenn.edu
10th Annual IAAAM/C.L. Davis Marine Species Histopathology Workshop

46th Annual IAAAM Conference
Chicago, Illinois
11 April 2015

For the tenth year, Dr. Judy St. Lager of Sea World will host a full-day seminar combining didactic lectures, case presentations, and audience interaction to cover what’s new and exciting in pathology of sea creatures. This year’s keynote speaker, Dr. Karen Teno of the Illinois Zoological Pathology Program, will present a keynote lecture on “Using Molecular Diagnostics in Pathology.” A tuition of only $100 before March 1 and $125 afterwards includes continental breakfast, refreshments, syllabus and a DVD of the case slides for review.

For more info, visit: http://www.oldavis.org/courses/upcoming.html
1st Uruguayan Seminar of the Charles Louis Davis, DVM Foundation
Ruminant Gross Pathology
13 June 2015 - Paysandú, Uruguay
(Immediately after the XLIII Uruguayan Buiatrics Congress; June, 11th to 13th 2015)

Organizers: Drs Rodolfo Rivero, Lourdes Adrien, Carolina Matto

Faculty: Dr Fabio del Piero, Louisiana State University (USA)
Dr Rodolfo Rivero, DILAVE “Miguel C. Rubino”, Paysandú (Uruguay)
Dr Francisco Uzal, University of California, Davis (USA)

Agricultural Experimental Station “Mario Cassinoni”, Faculty of Agriculture.
Ruta Nacional # 3 “General Artigas”, km 363. Paysandú, Uruguay.
Contact and registration: Dr Rodolfo Rivero (rrivero@mgap.gub.uy)

Registration fee: $ 45
9th Argentinean Seminar of the "Charles Louis Davis" Foundation
Pathology of Sheep, Goats and South American Camelids

7th Meeting of the Permanent Forum for Veterinary Pathology Teaching
Salta, Argentina, 23, 24 and 25 September, 2015

Invited speakers:
- Dr. Lluís Luján. University of Zaragoza (Spain)
- Dr. Franklin Riet-Correa. National Institute of Agricultural Research (Uruguay)
- Dr. Federico Giannitti. University of Minnesota (USA)

Short presentations: Short presentations dealing with pathology and/or health-related issues of sheep, goats or South American camelids will be considered for presentation as posters. The presentations must not have been submitted for publication or presented to other meetings before. More information: micheloud.juan@int.a.gob.ar, elgulmeno@fcv.unlp.edu.ar
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

Notice of future meetings

Continuing Education Symposium 2: Carcinogenesis
Wednesday 10th – Friday 12th December 2014
Department of Pathology, Cambridge, UK

Continuing Education Symposium 3: Liver
25th – 27th March 2015
Department of Pathology, Cambridge, UK

BSTP/BTS Symposium at the BTS ASM 2015
Renal Pathology: Integration with Toxicology
19th to 22nd April 2015
St. John's Hotel, Solihull, UK

Joint ESTP/BSTP Meeting
22nd – 25th September 2015
University of Surrey, UK

Continuing Education Symposium 4: Respiratory System
9th – 11th December 2015
Department of Pathology, Cambridge, UK

The aim of the Continuing Education Symposia is to provide an interactive environment to enhance your knowledge in the field of toxicological, discovery, clinical, experimental or veterinary pathology. The series of Continuing Education Symposia are designed to refresh participants’ knowledge and understanding of core principles, as well as discuss any important recent advances. Future BSTP Continuing Education Symposia will also focus on specific organ systems.

The Continuing Education Symposium programme is intended for toxicological and discovery pathologists (and other scientists working with animal models), clinical pathologists and toxicologists as well as non-clinical regulatory scientists. The aim is to make the content relevant to both those who have been working for a number of years and who feel they can benefit from an update (as well as contributing their experience to the group discussions that will take place) and those who are in the early stages of their careers.

For further information or to reserve a place on one of these meetings, please contact the BSTP Secretariat – bstpoffice@aol.com or check out the website – www.bstp.org.uk

Veterinary Forensic Pathology Conference
Penn State University

The Department of Veterinary and Biomedical Sciences and the Forensic Science Program of the Pennsylvania State University will host a conference on Veterinary Forensic Pathology on March 26, 27, and 28, 2015. Core sessions will be held at the Centre County and Penn State Visitor Center on the main campus in University Park, PA. Optional lab sessions will be held in other university facilities. The conference is intended for veterinary pathologists who have experience in the field of veterinary forensic pathology or advanced veterinary pathology residents with a strong commitment to forensic pathology. A basic understanding of forensic pathology is required. Seats are limited and preferential registration will be granted to veterinary pathologists. Speakers will include forensic pathologists Greg Davis, MD (University of Kentucky), Barbara Weakley-Jones, MD (Jefferson County Coroner), and Gordon Handte, MD (Mount Nittany Medical Center), forensic scientist Reena Roy, PhD (Penn State University), criminalist Ralph Ristenbatt (Penn State University), and the Centre County District Attorney’s Office.

Lecture and lab topics will include pathology of gunshot wounds, asphyxia, physical abuse, estimation of post-mortem interval, trace evidence collection, DNA analysis, use of alternate light sources, etc. Up to 16 hours of Continuing Education will be available to attendees. Register by February 27, 2015 to get a reduced registration fee of $195 ($155 for pathology trainees). Late registration fee is $250. Laboratory registration fees are additional and laboratory space is limited. No registrations will be accepted after March 20. For more information or to register visit our website at http://adl.psu.edu or contact Lola Hubler at the Animal Diagnostic Laboratory, (814) 863-0837 or adlhelp@psu.edu.

Got Pictures of a Foundation Meeting?
We’d love them for the newsletter! Attending a meeting, using a publication, spending time in a Foundation study center anywhere in the world – it all makes the newsletter a more interesting read and shows how much we are doing around the world.

Please send any digital images to Foundation newsletter to info@clldavis.org and thanks!!!
Annual seminar of the French Society of Veterinary Pathology

Liver pathology of domestic animals: An update

26th-28th March 2015
Institut Pasteur, Paris

Guest speakers: Pr J. Cullen (NCSU, USA), Dr M. Chevallier (Omnis, France), Dr P. Lecoindre (France)

The slide session is designed to practising veterinary pathologists
You are kindly requested to provide slides from feline or canine liver diseases

Program

Thursday 26th March 2015

16.00-16.30 Registration
16.30-18.30 Case presentation by the DESV students
18.30-19.30 Cocktail
19.30-21.30 Pathologie hépatique des Carnivores : le point de vue du clinicien, Dr P. Lecoindre, Lyon, France
Point sur l’hépatite vacuolaire du Scottish Terrier
Dr M. Chevallier, Omnis / Dr P. Lecoindre, Lyon, France

Friday 27th March 2015

9.00-10.30 Classification and Prognosis of Hepatocellular Neoplasia: Dogs, Cats & Lemurs
11.00-12.30 Slide session: Neoplasms of the Canine & Feline Liver
14.00-15.30 Congenital Anomalies of the Biliary Tree in Dogs & Cats
16.00-17.30 Slide session: Congenital Anomalies of the Biliary Tree in Dogs & Cats
17.45-19.00 SFAPV Annual General Meeting (members only)
19.30 Course dinner

Saturday 28th March 2015

9.00-10.30 Inflammatory Disorders of the Canine & Feline Liver-The Known and the Known Unknowns
11.00-12.30 Slide session: Inflammatory Disorders of the Canine & Feline Liver

### CALENDAR OF UPCOMING EVENTS

**Mar 2015**  
3-21/26  **1st Annual Diagnostic Pathology Symposium of the Middle Eastern Division – Cairo, Egypt**

**April 2015**  
4/11  **10th Annual IAAAM/C.L. Davis Marine Species Histopathology Workshop – Chicago, IL**

**May 2015**  
5/7-5/10  **3rd Annual WNPRC Lab Animal Medicine and Pathology Seminar**

**June 2015**  
6/13  **Inaugural Meeting of the Uruguay Division – Pathology of Ruminants**  
6/22-6/26  **2015 Descriptive Pathology Veterinary Pathology – Saskatoon, Saskatchewan, CAN**

**July 2015**  
7/13-7/17  **Gross Pathology Review Course, University of Tennessee, Knoxville, TN**

**September 2015**  
9/5-9/7  **2015 European Division Pathology Symposium**  
9/23-9/25  **9th Argentinean Seminar of the C.L. Davis Foundation**

**October 2015**  
10/17  **CLD/ACVP diagnostic Pathology Workshop – “Fish Pathology for the Practical Pathologist”**

### BOOKSTORE ORDERS

We occasionally have problems with overseas credit card orders through the bookstore. If you find you cannot place your order please email, call or fax the Foundation at phone: 847-367-4359, fax: 847-247-1869  
email: cldavisdvm@comcast.net. Make sure you include your name, address, phone, email address and credit card number with expiration date and we will ship your purchase immediately.
