The II Gross Morbid Pathology Course/VII Brazilian CL Davis Symposium was held between October 20th and 24th, 2014 in Botucatu, São Paulo State, Brazil.

The course was organized by The Brazilian Association of Veterinary Pathology (ABPV), the Brazilian Division of the C. L. Davis Foundation and the Latin Comparative Pathology Group (the Latin-American Division of the C. L. Davis Foundation); financial support was generously provided by the Sao Paulo State Research Foundation (Fapesp). Course coordinators were Drs. Renee Amorim and Geovanni Cassali, from the Universidade Estadual Paulista and the Universidade Federal de Minas Gerais, respectively.

The main objective of the course was to prepare trainees for the Brazilian Veterinary Pathology board examination. Lectures were given by Dr. Ana Alcaraz (cats, pigs and wild life), Western University of Health Sciences, Dr. Don Meuten (horses and dogs), University of North Carolina, and Dr. Francisco (Paco) Uzal (bovine and avian), University of California Davis. The speakers showed gross and microscopic images, and personal experiences of classic and not so classic lesions of all those species. The more than 150 participants (students, residents and pathologists from all over Brazil) were an enthusiastic and committed audience that kept the interest after seeing more than 2000 images!

The audience and organizers were very pleased with the presentations and with the speakers. The general feeling was that the high expectations that had been set for this course were met. The speakers were overwhelmed by the wonderful hospitality and the genuine efforts of everybody to make them feel welcome, and were impressed by the high level questions and the interest in learning pathology of the attendees. This delightful experience pleased participants, organizers and speakers.

OBRIGADO!
2015 Descriptive Veterinary Pathology Course

Western College of Veterinary Medicine
University of Saskatchewan
Saskatoon, SK CANADA
22-26 June 2015

Lectures include:

- Descriptive Techniques in:
  - Gross Pathology
  - Microscopic Pathology
  - Cytology
  - Electron Microscopy
  - Immunohistochemistry
- Review of Clinical Pathology
- Gross-Microscopic Correlations
- 6 Practical Examinations
  - Gross Exams
  - Histo Exams
  - 4 exams are faculty-graded for extra feedback

For more information, including tuition, venue, and hotel information, please visit
http://www.cldavis.org/courses/upcoming.html

Program Director:
Dr. Bruce Williams, DVM, DACVP
Joint Pathology Center
301-467-4024
Email: Williams@cldavis.org

This program has been submitted (but not yet approved) for 38 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call (Dr. James Britt, 601-912-1449) for further information
WNPRC Lab Animal Medicine and Pathology Seminar with International Mock-ACLAM Exam*

Sponsored by C.L. Davis DVM Foundation and the Wisconsin National Primate Research Center

May 7th to 9th, 2015
Madison, WI

Program Directors:
Andres Mejia DVM, MS, DACLAM
amejia@primate.wisc.edu

Christina Cruzen DVM, DACLAM
ccruzen@ucdavis.edu

Lecture topics include:
Mice and non-human primates, other primary and secondary species
AVMA Panel on Euthanasia
USDA, OLAW, and GLP regulations
International Mock Exam Coalition Examination

For more info: http://www.cldavis.org/upcoming.html

This program has been submitted (but not yet approved) for 38 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call Dr. James Britt, 901-912-1440 for further information.
42nd Annual Gross Pathology Review Course

Presented by the Charles Louis Davis, DVM Foundation
13-17 July 2015  University of Tennessee

Come join us at one of the most renowned pathology courses in the world - all species, all systems, and international experts presenting 36 hours of great CME. Each year, this in-depth course draws over 100 pathologists, lab animal practitioners, veterinary clinicians, and students from around the world. Don't miss out in 2014!

Course Director:
Bruce Williams, DVM, DACVP
Email: Williams@cldavis.org

or contact Course Director, Angela Brice, abrice@upenn.edu
Have You Heard About COPLOW?

The Comparative Ocular Pathology Laboratory of Wisconsin (COPLOW) has many opportunities to learn about ocular pathology in animals and we enjoy knowing that pathologists and pathology trainees are aware of them. This is a list of opportunities and programs that might be of interest:

1. A one-year fellowship at the lab. Usually beginning each July.
2. Visits to the lab. It is easy to accommodate visitors who will help trim in specimens, sit in on read-outs and engage in self-study using materials for that purpose.
3. Make a daily habit of visiting the COPLOW Facebook page, which is populated with new teaching images almost every weekday. These images can be used with acknowledgement. https://www.facebook.com/pages/Comparative-Ocular-Pathology-Laboratory-of-Wisconsin-COPLOW/187304944629162
   On the same page, under “Training Programs”, you can click on a site with a collection of Aperio images and also a downloadable teaching text. http://www.vetmed.wisc.edu/pbs/dubielzig/pages/coplow/slideteachingset.htm

SAVE THE DATE!

Yes, there will be a 2015 Current Lab Animal Science Symposium and Pathology of Laboratory Animals Course! Planning is underway and these two important Davis Foundation courses will be held during the first two weeks of August at the veterinary school at Virginia Tech in Blacksburg, Virginia. Moreover, the courses will be held in conjunction (immediately prior) to the annual 3-day VT “Clinical Pathology for Anatomic Pathologists” course, and attendees to more than one of these back-to-back-to-back courses will reap significant savings! Details to follow in next month’s newsletter...
For the tenth year, Dr. Judy St. Leger of Sea World will host a full-day seminar combining didactic lectures, case presentations, and audience interaction to cover what’s new and exciting in pathology of sea creatures. This year’s keynote speaker, Dr. Karen Teo of the Illinois Zoological Pathology Program, will present a keynote lecture on “Using Molecular Diagnostics in Pathology.” A tuition of only $100 before March 1 and $125 afterwards includes continental breakfast, refreshments, syllabus and a DVD of the case slides for review.

1st Uruguayan Seminar of the Charles Louis Davis, DVM Foundation
Ruminant Gross Pathology
13 June 2015 - Paysandú, Uruguay
(Immediately after the XLIII Uruguayan Buiatrics Congress; June, 11th to 13th 2015)

Organizers: Drs Rodolfo Rivero, Lourdes Adrien, Carolina Matto
Faculty: Dr Fabio del Piero, Louisiana State University (USA)
Dr Rodolfo Rivero, DLAVE “Miguel C. Rubino”, Paysandú (Uruguay)
Dr Francisco Uzal, University of California, Davis (USA)

Agricultural Experimental Station “Mario Cassinoni”, Faculty of Agriculture.
Ruta Nacional # 3 “General Artigas”, km 363. Paysandú, Uruguay.
Contact and registration: Dr Rodolfo Rivero (rrivero@mgap.gub.uy)
www.buiatriapaysandu.uy

Registration fee: $ 45
5th Argentinean Seminar of the "Charles Louis Davis" Foundation
Pathology of Sheep, Goats and South American Camelids

7th Meeting of the Permanent Forum for Veterinary Pathology Teaching
Salta, Argentina, 23, 24 and 25 September, 2015

Invited speakers:
- Dr. Lluis Lujan. University of Zaragoza (Spain)
- Dr. Franklin Riet-Correa. National Institute of Agricultural Research (Uruguay)
- Dr. Federico Giannitti. University of Minnesota (USA)

Short presentations: Short presentations dealing with pathology and/or health-related issues of sheep, goats or South American camelids will be considered for presentation as posters. The presentations must not have been submitted for publication or presented to other meetings before. More information: michelouj.uan@intn.gob.ar, elipmeno@fcv.unlp.edu.ar
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

Notice of future meetings

Continuing Education Symposium 2: Carcinogenesis
Wednesday 10th – Friday 12th December 2014
Department of Pathology, Cambridge, UK

Continuing Education Symposium 3: Liver
25th – 27th March 2015
Department of Pathology, Cambridge, UK

BSTP/BTS Symposium at the BTS ASM 2015
Renal Pathology: Integration with Toxicology
19th to 22nd April 2015
St. John’s Hotel, Solihull, UK

Joint ESTP/BSTP Meeting
22nd – 25th September 2015
University of Surrey, UK

Continuing Education Symposium 4: Respiratory System
9th – 11th December 2015
Department of Pathology, Cambridge, UK

The aim of the Continuing Education Symposia is to provide an interactive environment to enhance your knowledge in the field of toxicological, discovery, clinical, experimental or veterinary pathology. The series of Continuing Education Symposia are designed to refresh participants’ knowledge and understanding of core principles, as well as discuss any important recent advances. Future BSTP Continuing Education Symposia will also focus on specific organ systems.

The Continuing Education Symposium programme is intended for toxicological and discovery pathologists (and other scientists working with animal models), clinical pathologists and toxicologists as well as non-clinical regulatory scientists. The aim is to make the content relevant to both those who have been working for a number of years and who feel they can benefit from an update (as well as contributing their experience to the group discussions that will take place) and those who are in the early stages of their careers.

For further information or to reserve a place on one of these meetings, please contact the BSTP Secretariat – bstpoffice@aol.com or check out the website – www.bstp.org.uk

Why not join our group on LinkedIn – British Society Toxicological Pathology
Veterinary Forensic Pathology Conference
Penn State University

The Department of Veterinary and Biomedical Sciences and the Forensic Science Program of the Pennsylvania State University will host a conference on Veterinary Forensic Pathology on March 26, 27, and 28, 2015. Core sessions will be held at the Centre County and Penn State Visitor Center on the main campus in University Park, PA. Optional lab sessions will be held in other university facilities. The conference is intended for veterinary pathologists who have experience in the field of veterinary forensic pathology or advanced veterinary pathology residents with a strong commitment to forensic pathology. A basic understanding of forensic pathology is required. Seats are limited and preferential registration will be granted to veterinary pathologists. Speakers will include forensic pathologists Greg Davis, MD (University of Kentucky), Barbara Weakley-Jones, MD (Jefferson County Coroner), and Gordon Handte, MD (Mount Nittany Medical Center), forensic scientist Reena Roy, PhD (Penn State University), criminalist Ralph Ristenbatt (Penn State University), and the Centre County District Attorney’s Office.

Lecture and lab topics will include pathology of gunshot wounds, asphyxia, physical abuse, estimation of post-mortem interval, trace evidence collection, DNA analysis, use of alternate light sources, etc. Up to 16 hours of Continuing Education will be available to attendees. Register by February 27, 2015 to get a reduced registration fee of $195 ($155 for pathology trainees). Late registration fee is $250. Laboratory registration fees are additional and laboratory space is limited. No registrations will be accepted after March 20. For more information or to register visit our website at http://adl.psu.edu or contact Lola Hubler at the Animal Diagnostic Laboratory, (814) 863-0837 or adlhelp@psu.edu.

Got Pictures of a Foundation Meeting?
We’d love them for the newsletter! Attending a meeting, using a publication, spending time in a Foundation study center anywhere in the world – it all makes the newsletter a more interesting read and shows how much we are doing around the world.

Please send any digital images to Foundation newsletter to info@cldavis.org and thanks!!!
Summer Fellowship Program
Diagnostic Pathology

The Johns Hopkins Department of Molecular and Comparative Pathobiology offers two (2) summer fellowships to veterinary students. The program focuses on acquiring competence in diagnostic pathology in a wide range of laboratory, domestic and exotic animals. Summer fellows participate in the animal necropsy service for laboratory animals housed within the University as well as cases from the Maryland Zoo, National Aquarium in Baltimore, and local practitioners. Summer fellows perform gross necropsies, trim tissues and make histopathologic diagnoses. Cases are signed out with one of six ACVP Diplomates on faculty. Summer fellows are encouraged to observe, assist, and/or participate in on-going research within our department or in other research groups. Trainees will work side by side with DVM’s participating in the postdoctoral training program in Comparative Medicine. Necropsy rotation will be two to three days a week. You will not be required to be on evening or weekend call.

The program starts early May to early June and continues for a minimum period of 8 weeks, up to a maximum of 12 weeks and provides a monthly stipend of approximately $1765. Starting date is flexible to work with your summer schedule.

Qualification
To be eligible for a fellowship, a student must have completed 2 years of the professional veterinary curriculum.

Application
To apply for the program, please send a letter stating your background, interests and goals, official transcript of veterinary college courses, curriculum vitae, GRE scores, class rank, and two (2) letters of recommendation from faculty members. Please mail application to Emma Ey, Academic Program Coordinator, Department of Molecular and Comparative Pathobiology, Johns Hopkins University, 733 N. Broadway, Suite 811, Baltimore, MD 21205-2196, or e-mail to eey@jhmi.edu no later than February 27, 2015.

For information on the Department of Molecular and Comparative Pathobiology, please visit our website at www.hopkinsmedicine.org/mcp/.

Johns Hopkins University is an equal opportunity, affirmative action employer with a strong commitment to racial, and cultural and ethnic diversity. Nominations and applications from women and individuals from a broad spectrum of backgrounds are encouraged.
Annual seminar of the French Society of Veterinary Pathology

Liver pathology of domestic animals: An update

26th-28th March 2015
Institut Pasteur, Paris

Guest speakers: Pr J. Cullen (NCSU, USA), Dr M. Chevallier (Omnis, France), Dr P. Lecoindre (France)

The slide session is designed to practising veterinary pathologists
You are kindly requested to provide slides from feline or canine liver diseases

Program

Thursday 26th March 2015

16.00-16.30  Registration
16.30-18.30  Case presentation by the DESV students
18.30-19.30  Cocktail
19.30-21.30  Pathologie hépatique des Carnivores : le point de vue du clinicien, Dr P. Lecoindre, Lyon, France
             Point sur l'hépatite vacuolaire du Scottish Terrier
             Dr M. Chevallier, Omnis / Dr P. Lecoindre, Lyon, France

Friday 27th March 2015

9.00-10.30  Classification and Prognosis of Hepatocellular Neoplasia: Dogs, Cats & Lemurs
11.00-12.30 Slide session: Neoplasms of the Canine & Feline Liver
14.00-15.30 Congenital Anomalies of the Biliary Tree in Dogs & Cats
16.00-17.30 Slide session: Congenital Anomalies of the Biliary Tree in Dogs & Cats
17.45-19.00 SFAPV Annual General Meeting (members only)
            Course dinner

Saturday 28th March 2015

9.00-10.30  Inflammatory Disorders of the Canine & Feline Liver-The Known and the Known Unknowns
11.00-12.30 Slide session: Inflammatory Disorders of the Canine & Feline Liver

CALENDAR OF UPCOMING EVENTS

Mar 2015
3-21/26 1st Annual Diagnostic Pathology Symposium of the Middle Eastern Division – Cairo, Egypt

April 2015
4/11 10th Annual IAAAM/C.L. Davis Marine Species Histopathology Workshop – Chicago, IL

May 2015
5/7-5/10 3rd Annual WNPRC Lab Animal Medicine and Pathology Seminar

June 2015
6/13 Inaugural Meeting of the Uruguay Division – Pathology of Ruminants
6/22-6/26 2015 Descriptive Pathology Veterinary Pathology – Saskatoon, Saskatchewan, CAN

July 2015
7/13-7/17 Gross Pathology Review Course, University of Tennessee, Knoxville, TN

September 2015
9/23-9/25 9th Argentinean Seminar of the C.L. Davis Foundation

BOOKSTORE ORDERS
We occasionally have problems with overseas credit card orders through the bookstore. If you find you cannot place your order please email, call or fax the Foundation at phone: 847-367-4359, fax: 847-247-1869 email: cldavisdvm@comcast.net. Make sure you include your name, address, phone, email address and credit card number with expiration date and we will ship your purchase immediately.
