Descriptive Vet Path Course Travels to Canada!

For the first time in its 26-year history, the Foundation’s Descriptive Veterinary Pathology course was held in the gorgeous Canadian summer, this time in beautiful Saskatoon. Warm days and beautiful sunsets punctuated a course, which promised to “deliver knowledge, not just information.”

The course’s all-star faculty put on quite a show. Monday was a full day of lecture on gross and microscopic descriptions with long-time faculty member Paul Stromberg discussing why the microscopic features of lesions produce recognizable gross patterns, as well as how to create the proper gross morphological diagnosis for a wide range of purposes (including board examinations.). Auburn University’s Jey Koehler (in her third year on the Faculty) then covered the logic and art of the description of microscopic specimens, a difficult subject due to the infinite variation of microscopic lesions. She filled her three hours with unique perspectives, irreverent humor, and such a wealth of sage advice that participants were dismayed that the practice exams were still two days away.

On Tuesday, Dana Scott (another well-traveled DVP veteran) delivered four hours of lecture on ultrastructural pathology, garnering high acclaim from many attendees who had never before attempted to unravel the mystery of electron micrographs. In a step-by-step fashion, he covered features of normal cells at great magnification, the visual cues of cellular degeneration, clues to determine which organ you are looking at, and finally the salient features of a wide variety of infectious agents. At mid-day, he discussed descriptive techniques in immunohistochemical diagnosis, reminding participants that immunohistochemistry is not simply brown and blue pictures, but an important diagnostic paradigm with an approach and vocabulary all its own.

Finally, Dr. Jennifer Scruggs’ the clinical pathologist of the Joint Pathology Center, in her first Descriptive course presented an outstanding, all-new lecture on cytologic descriptive techniques. This all-inclusive, beautifully illustrated lecture ran the gamut from common mistakes in specimen preparation to the various...
differences between the common inflammatory and neoplastic lesions one might commonly see in a diagnostic setting. She succinctly explained a wide variety of case reports and participants all agreed that her presentation was immensely useful.

Wednesday through Friday largely belonged to Foundation CEO and course director (for his 40th and final time) Bruce Williams, who had promised to reinforce and illustrate the panoply of information presented in the previous two days, and forge it into knowledge. Graded gross and histological examinations, reviewed in a group session, reinforced the important concepts, the seemingly inexhaustible energy and personality of Dr. Williams turned the potential drudgery of three days of exam into a fun and entertaining experience.

Evenings at the Descriptive Course provided plenty of opportunity for relaxation, with the university’s riverside location, Saskatoon’s plethora of wonderful eateries and pubs, an ongoing jazz festival, and the late sunsets of the Canadian summer. The cares and pressures of the day quickly dissolved into smiles and laughter as one of North America’s most welcoming cities made an international group feel right at home. Dr. Andy Allen of the Western College of Veterinary Medicine was a perfect host, watching over the course and participants, managing local details and ensuring everyone’s Saskatoon experience was first-rate.

Friday was marked by a passing of the torch, of sorts, as Dr. Williams announced that after 25 years of teaching this course both in the U.S. and abroad, he was stepping down from that assignment, and turning the course over to Dr. Jey Koehler. “It’s been a great run, and for the last quarter-century, I’ve had an absolute blast. But it's time for young people with new ideas, and I can't think of anyone more qualified than Jey…. I’m so grateful to all of you” he added, as he left the stage to the applause of the remaining participants.

Next year’s Descriptive Courses are already in their planning stages. A June 2016 course will be held at Auburn University, and plans for the biannual European and a first-ever Australian edition are currently in the works.

AAVLD Slide Sets Available for Purchase!

Limited numbers of glass slides sets from the AAVLD Diagnostic Pathology Slide Seminars (2011-2014) are available for purchase! A listing of diagnoses for the slides within each set can be viewed here. You may obtain one or more of the sets by submitting an order form to the AAVLD Secretary-Treasurer. (Click here). Proceeds generated from sale of slide sets will be used for pathology resident/graduate student travel awards. All sets are available for $50 per set plus shipping. Please contact Dr. Rob Bildfell (Rob.Bildfell@oregonstate.edu) if you require further information.
August 2015

2015 Roadshow – sponsored by the Australian Animal Pathology Standards Program & the CL Davis Foundation

The Speaker Tom Rosol
Tham Rosol, DVM, PhD is a professor of veterinary pathology at The Ohio State University and Diplomate of the American College of Veterinary Pathologists. He is co-author of the Pathology of Endocrine Glands chapter of the next edition of Jubb and Kennedy and Palmer’s “Pathology of Domestic Animals”. Tom has served as dean of the College of Veterinary Medicine and vice president for research at OSU and on advisory boards to the National Institutes of Health, United States Department of Agriculture, American Veterinary Medical Association, and Morris Animal Foundation. Tom is a researcher and consultant in preclinical safety in the areas of endocrine, bone, and reproductive pathology and animal models of cancer. Tom has 250 publications and served as the mentor for over 40 PhD graduate students and postdoctoral trainees.

The Topic: The 2015 Roadshow will consist of 2 days of lectures and discussions on large and small animal endocrine pathology. Relevant clinical pathology topics important for endocrinology will be included. Topics will include the pathology of the pituitary, thyroid, parathyroid, adrenal, and paraneoplastic endocrine syndromes.

New concepts and updates will be emphasised.

Concepts will often be illustrated with actual case material.

This year’s Roadshow will also appeal to veterinary clinicians and internal medicine specialists.

1-2 hours will be reserved for a session on emerging diseases. More details later. If this session is not offered, it will be replaced with 2 hours of worked cases for participant evaluation, group discussion and moderation by the speaker.

Inquiries and Bookings
The Roadshow is aimed at clinical and anatomical veterinary pathologists. However, veterinary clinicians and internal medicine specialists are also welcome to attend.

Participants whose employer is a member of AAPSP attend free of charge.

Participants whose employers are not members of AAPSP pay a fee. The total cost is AS$857 (approximately US$700), which includes attendance for both days, lunches, snacks, coffee and tea.

Please contact the relevant state Roadshow co-ordinator (via the email links above) for venue details and to confirm your attendance.

Not AAPSP members should enrol and pay before attending the Roadshow. Contact Megan Wylie, Project Officer AAPSP
MWylie@animalhealthaustralia.com.au for inquiries and bookings. Ph 02 6203 3954

April 2015
2015 CURRENT LAB ANIMAL SCIENCE SEMINAR

2015 PATHOLOGY OF LAB ANIMALS COURSE

2015 CLINICAL PATHOLOGY COURSE

Virginia-Maryland College of Veterinary Medicine: 01-07 August 2015

“The Guide,” Chapter by Chapter • Pathology of Laboratory Fish • Pathology of Non-Traditional Lab Animal Species • Preparing for the ACLAM Board • Pathology of the “Irrelevant Rodents” • BMBL and Biosafety • USDA, and PHS Policies • Statistics for LAM Vets • Pathology of all Major Lab Species • AND MUCH MORE!

Course questions, contact Paul Facemire at facemirep@hotmail.com

Tuition: CLASS only $350
POLA only- $400
Combined CLASS/POLA - $700
ClinPath only-$350
Combined POLA/ClinPath- $700
Combined CLASS/ POLA/ ClinPath- $950

These courses have been submitted (but not yet approved) for 60 hours of continuing education credit in jurisdictions which recognize AVMA/ RACE approval; however, participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. Call Dr. James Brit, 501-907-2435, for further information.
C.L. Davis Foundation and Latin Comparative Pathology Group
3rd CHILEAN MEETING OF HISTOPATHOLOGY
Chillán, 27-28 August 2015

Slide seminar: Contributors must submit 30 slides to Dr. Sergio Donoso Erch, Avda. Vicente Méndez 595, Chillán, Chile. sedonoso@udec.cl. Deadline: 10 July

Invited lecturers
Dr. Eduardo Juan Gimeno, DVM, MSc, PhD. La Plata University, Argentina. “Contribution of immunohistochemistry to the diagnosis and characterization of some non-infectious diseases of production animals.”

Dr. Fernando Dutra Quintela, DMV, MSc, FRCV. Miguel Rubino Institute, Uruguay. “Gross and microscopic pathology of the main diseases of cattle in Uruguay”. “Gross and microscopic pathology of the main diseases of sheep in Uruguay”

Dr. Carlos González Riveros, DVM, MPhil, PhD. Universidad Andrés Bello, Chile. “Criteria for grading and prognosis of canine and feline neoplasias”. “Cytologic and histologic grading of canine and feline mammary tumors”.

Venue: Faculty of Veterinary Sciences, Concepción University, Chillán Campus, Avda. Vicente Méndez 595, Chillán, Chile.

Registration: Mrs. Araceli Rivas Cádiz, email: arrivas@udec.cl, phone: +56-42-2205757
Fee: $45.000 (Chilean pesos).

Retiring? Have slides left over from your recent slide seminar? Just looking to free up some storage space? The Foundation is looking for additional glass slides, kodachromes and other similar materials for its Correspondence Division and Study Centers. All materials should be well-identified with as much accompany history and discussion as possible, as these materials are expressly used for teaching. Moreover, as the Foundation is a publicly donative charity, all donated materials are tax-deductible. For more information, please contact Dr. Bruce Williams at williams@cldavis.org.
A reminder of the Workshop at the WVPA Congress 2015 in Cape Town, South Africa

Diagnostic Pathology of Poultry Diseases: A Review

The workshop will be presented by Dr. Tahseen Aziz from 2-5 PM on September 7, 2015 in the Cape Town International Convention Center. The principal objective of the workshop is to show and discuss lesions of diseases of commercially-raised chickens (broilers, broiler breeders, and table-egg layers) and backyard/hobby chickens, as well as some diseases of turkeys, game birds, and waterfowl. Emphasis will be given to necropsy findings in diagnostic cases, with some histopathologic lesions. Additionally, for some diseases, differential diagnoses and ancillary laboratory tests will be discussed.

Dr. Aziz (DVM, MS, PhD, Diplomate ACPV) is the avian pathologist and diagnostician at Rollins Animal Disease Diagnostic Laboratory in Raleigh, North Carolina, USA.

AAZV 22nd Annual Zoo & Wildlife Pathology Workshop

Sunday, September 27th
8AM-5PM
Portland, OR
Annual Meeting of AAZV

The theme of this year’s AAZV/CL Davis Foundation pathology workshop will focus on collaborations between anatomic pathology and diagnostic imaging (radiographs, CAT scan, MRI, ultrasound, etc) in the morning, with an afternoon session of cool cases from a wide variety of species. Please visit the CL Davis Foundation website for more information: http://www.cldavis.org/courses/upcoming.html#184

**Keynote Speaker:**
Dr. Tony Pease, DVM, Dipl. ACVR
“Lions, tigers, and turtles - how imaging has expanded our horizons”

**CALL FOR CASES!**
If you wish to present a case, please email Dalen Agnew (agnewd@dcpah.msu.edu) with a brief description of the case by July 6, 2015.
25th Annual South Central Division Meeting
TAMU Galveston Campus
October 2-3, 2015

Reserve your room at the Holiday Inn Resort on the Beach
(800) 315-2621 under C.L. Davis

Guest Lecture:
Cytology Simplified: A Systematic Guide to Thorough Descriptions
by Britton Grasarge, DVM, PhD, DACVP
General Gross Pathology Quiz, Fabio dal Piero, DVM, PhD, DACVP

- Anatomic, clinical pathology and lab animal case reports welcome
- Submit two slides and electronic write-up to Dr. Edward Dick, edick@TxDiomed.org
  Visit http://www.cldavis.org/courses/upcoming.html

Course Director:
Dr. Barbara Lewis, 979-845-3414 blewis@tvmd.tamu.edu Registration details are forthcoming.

This program has been submitted but not yet approved for 10 hours of continuing education credit in jurisdictions which recognize AAVSB RACE approval; however, participants should be aware that some boards have limitations on the number of hours accepted in certain categories and/or restrictions on certain methods of delivery of continuing education. The
LIFE (& Death)
AQUATIC

2015 ANNUAL MEETING
October 17
Minneapolis, Minnesota
For more info and registration visit: acvp.org
Tuition: $150 (includes refreshments, CD of presentations, and CE)
*The tuition fee will be waived for winners of the travel award*

Registration is through the C.L. Davis and is separate from meeting registration fees. Please pre-register to guarantee receipt of materials.

Registration and more information call 847-367-4359 or visit:
[http://www.cldavis.org/courses/upcoming.html#186](http://www.cldavis.org/courses/upcoming.html#186)
The **Latin Comparative pathology Group (LCPG)**, the Latin-American Division of the **CL Davis Foundation**, encourages professionals and students of veterinary pathology, currently residing in Latin America, to participate and present their research work at the 2015 combined annual meeting of the American College of Veterinary Pathologist / American Society for Veterinary Clinical Pathology / Society of Toxicologic Pathology (ACVP/ASCVP/STP), to be held in Minneapolis, MN, October 17-21, 2015.

The LCPG offers one Travel Award intended to help with the expenses to attend the 2015 ACVP/ASCVP/STP meeting!

- The recipient will be awarded a **US$500** award from the LCPG to help defray travel and other costs associated with attending the annual meeting of the ACVP/ASVCP/STP.
- Applications will be received not later than August 30th, 2015 (please use application form attached)
- Applicants must have an accepted abstract in the ACVP/ASVCP/STP meeting (poster and/or oral presentation). The recipient of the award will be notified by email not later than September 15, 2015.
- The award will be presented at the CL Davis Award Ceremony during the ACVP/ASVCP/STP annual meeting.
- LCPG cannot help with visa (immigration) application procedures.
- **Contact Dr. Ana Alcaraz aalcaraz@westernu.edu if you have any questions.**

---

**Got Pictures of a Foundation Meeting?**

We’d love them for the newsletter! Attending a meeting, using a publication, spending time in a Foundation study center anywhere in the world – it all makes the newsletter a more interesting read and shows how much we are doing around the world.

Please send any digital images to Foundation newsletter to **info@cldavis.org** and thanks!!!
Mouse Models of Disease: Improving Reproducibility of Pathology Endpoints in Challenge Models

9-11 February 2016
Wellcome Trust Genome Campus, Hinxton, Cambridge, UK

This popular conference will bring together veterinary and human pathologists and scientists working with mouse models in academic and industrial research. The programme will review basic approaches to creating and interpreting reproducible mouse pathology data.

A major focus of the 2016 meeting will be the techniques used to investigate the pathology in the respiratory and gastrointestinal tracts in challenged and non-challenged phenotyping studies.

Topics
- Infectious diseases
- Environmental factors
- Infection models
- Nutrition and diet
- Microbiota
- Lung function
- Respiratory disease models
- Imaging and validation
- Reproducibility of lung cancer models

Deadlines
Abstract Deadline: 8 December
Registration Deadline: 10 January

Full details at:
www.wellcome.ac.uk/conferences

Scientific Programme Committee
Mark Arends University of Edinburgh, UK
Cory Brayton Johns Hopkins School of Medicine, USA
Laurence Fiette Institut Pasteur, France
Aude Roulois GlaxoSmithKline, UK
Cheryl Scudamore MRC Harwell, UK
Mohamed Slamti Sanofi R&D, France
Jacqui White Wellcome Trust Sanger Institute, UK
Jonathan Williams Royal Veterinary College, UK

Nicola Beckmann Novartis Institutes for BioMedical Research, Switzerland
Anton Berns The Netherlands Cancer Institute, Netherlands
Craig Franklin University of Missouri, USA
John Grainger University of Manchester, UK
Patrick Hardy Institut Pasteur, France
Wayne Mitzner John Hopkins University, USA
Jonathan Staub WIMBIO/IMT, France

co-sponsored by the C.L. Davis Foundation
The Uruguayan Division of the CLDavis Foundation was created last June together with the establishment of an Independent Study Center of the Foundation in that country. The inaugural meeting of the Uruguayan Division, Ruminant Gross Pathology, organized by Drs. Rodolfo Rivero, Lourdes Adrien and Carolina Matto (photo) was held Saturday June 12 in Paysandú, a city on the banks of the Uruguay River, some 400 km Northwest of Montevideo.

In addition to the CLDavis Foundation, the seminar was sponsored by the Paysandú Veterinary Medical Center and the Latin Comparative Pathology Group. It was held in conjunction with the traditional annual Uruguayan Buiatrics Conference, which is already in its 43th edition, and this year gathered close to 500 veterinarians from Uruguay and neighboring countries. Almost 100 colleagues attended the CLDavis Seminar at which Drs. Fabio del Piero presented lectures on nervous and reproductive system and Paco Uzal on gross diagnosis, during the morning. The afternoon was dedicated to hands on wet lab with gross specimens of ruminants, conducted by Rodolfo Rivero and Paco Uzal (photo).

Amongst the many “cool” specimens available for the wet lab, there were livers of animals with *Fasciola hepatica* infestation, and intoxication by *Lantana camara* (photo) and *Cestrum parqui*, lungs with bacterial pneumonia and a heart and uterus with lymphoma (photo).
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

Notice of future meetings

8th to 9th July 2015
Pathology for Non-pathologists Course – Europe
Hosted by the American College of Toxicology (ACT) and the British Society of Toxicological Pathology (BSTP) at MediImmune, Cambridge, UK

This three-day joint American College of Toxicology (ACT) and British Society of Toxicological Pathology (BSTP) course, modelled after the successful ACT/BSTP US Pathology for the Non-pathologist course, will be held for the first time in the United Kingdom in July 2015. The knowledge gained will be immediately applicable to your day-to-day practices. The course will be suitable for toxicologists, safety pharmacologists, non-clinical regulatory scientists, and other scientists working in preclinical disciplines. The content will be suitable for those who are relatively new to their roles, and will also be highly relevant to experienced scientists who wish to consolidate their understanding, and update their knowledge of recent developments and changes in the field. Highly respected pathologists with current, relevant experience in toxicologic pathology will provide lectures covering anatomy and physiology, spontaneous and chemically induced pathological changes, clinical pathology, and case examples.

22nd – 25th September 2015 – 13th European Congress of Toxicologic Pathology in collaboration with the British Society of Toxicological Pathology at University of Surrey, UK

This will be an exciting opportunity for members of both societies and their colleagues, together with other interested scientists from Europe and beyond, to share their expertise, challenges and vision of Toxicologic Pathology on the topic of “From genes to drugs: an insider’s view on cell pathology”.

9th to 11th December 2015 – Continuing Education Symposium 4: Respiratory System at the University of Cambridge, Cambridge, UK

The BSTP Continuing Education Symposium 4: Respiratory System will provide the most complete and in-depth coverage of respiratory pathology. The BSTP’s aim is to devise a scientific program that provides an intermediate level symposium covering both theory and practical classes including INHAND, rodent and non-rodent respiratory pathology, translational models of COPD, juvenile toxicity in inhalation studies, the challenges of inhalation toxicity in relation to agrochemical safety assessment, and risk assessment, including the requirements for non-clinical inhalation studies for registration and clinical development. This symposium will not be repeated until at least 2019!

9th to 11th February 2016 – BSTP/Wellcome Trust – Mouse Models of Disease at the Wellcome Trust Conference Centre, UK

This three-day meeting is aimed at veterinary and human pathologists and scientists working with mouse models in academic and industrial research. The first day of the meeting will review basic approaches to creating and interpreting reproducible mouse pathology data. Days two and three will discuss the use of pathology and allied techniques in investigating pathology in the respiratory and gastrointestinal tracts in challenged and non-challenged phenotyping studies. Throughout the programme an emphasis will be placed on understanding the influence of environmental effects and experimental challenges on pathology endpoints and their potential effects on the reproducibility of data.

Proposed Continuing Education Symposia in 2016:
CES 5: Reproductive system - 16th - 18th March 2016 (date to be confirmed)
CES 6: Nervous system - 6th - 8th July 2016 (date to be confirmed)
CES 7: Urinary system - 7th - 9th December 2016 (date to be confirmed)

For further information or to reserve a place on one of these meetings, please contact the BSTP Secretariat – bstpoffice@aol.com or check out the website – www bstp org uk
