Foundation speaker Dr. Amy Durham joins ASVP in Townsville

Palm lined beach in the tropical port city of Townsville Australia. Location of the annual conference Australian Society for Veterinary Pathology

The 2016 ASVP annual conference was hosted at James Cook University (JCU), Townsville. 56 delegates enjoyed the beautiful setting, warm opening and hospitality offered by Dr. Peter Chenoweth, Professor and Head of the School of Veterinary Science. Combining the expertise of keynote speaker Dr. Amy Durham, Assistant Professor of Pathology from the University of Pennsylvania and Dr. Karen Jackson, Senior Lecturer, Clinical Pathology, University of Queensland, ensured a professional and interactive conference with both histopathology and clinical pathology views of hematopoietic pathology thoroughly explored.

Beginning with the basics of bone marrow pathology, from the anatomical perspective, Dr. Durham set the standard for the conference on day one. Amy covered core concepts, key terms and definitions and ensured all attendees had a sound foundation for more detailed and applied lectures ahead. Karen mirrored Amy’s opening presentation by providing the clinical pathologist’s view and priorities for bone marrow examination. These two sessions culminated in a combined case material based presentation prepared by both Amy and Karen that demonstrated the interrelationship and essential features of both histopathologic and clinical pathology results.
Dr Sue Jaensch presented an informative and practical overview of avian hematopathology drawing on years of practical experience and knowledge to discuss the challenges associated with sample collection, prioritization of testing, sample processing in the laboratory and evaluation of blood smears. In particular, the difficulties associated with sourcing reference data and interpreting results was informative and encouraged extensive discussion and sharing of ideas and resources.

The day ended with an interactive slide session run by Dr. Tony Ross allowing delegates to stretch their diagnostic capabilities and select the diagnosis of a variety of challenging routine and exotic disease cases. The academics of the day was nicely balanced by Happy Hour at the Townsville Yacht club.

Dr. Durham started day two of the conference with an excellent and practical overview of the WHO Classification System for hematopoietic neoplasms. Understanding the maturation pathways of T- and B cell development provides the foundation for working through the classification system and a sound approach to diagnosing lymphoma. This was then complimented with the human approach to the diagnosis and treatment of lymphoma presented by Dr Ian Irving, Director of Clinical Hematology and BMT, Queensland Health. Ian’s engaging style and clear expertise allowed delegates to appreciate the similarities and differences of lymphoma diagnosis in the human health space. Appreciating the larger access to modern pathological techniques and tests in human lymphoma diagnostics demonstrated the treatment options available and the similarities and differences in the diagnostic pathway.

Dr. Durham explored lymphoma diagnosis in greater depth with excellent histopathology images outlining the subtyping of lymphoma in cats, dogs and horses with emphasis on indolent lymphoma, alimentary lymphoma, canine lymphoma and hepatosplenic lymphoma. Combining this information with novel clinical pathology tests and prognostic indicators was the focus of Karen’s presentation supporting a comprehensive approach to the understanding, diagnosis and treatment options.
The conference dinner was held at the Seasoned Restaurant. Delegates were treated to a drink on arrival courtesy of the Society, before sitting down to a lovely meal and a night of discussions and gossip.

The tropical port city of Townsville Australia (left). Location of the annual conference Australian Society for Veterinary Pathology. Stinger jellyfish (right) and the occasional passing crocodile. No delegates were injured during this meeting!

---

**Retiring?**

Have slides left over from your recent slide seminar? Just looking to free up some storage space? **The Foundation is looking for additional glass slides, kodachromes and other similar materials** for its Correspondence Division and Study Centers. All materials should be well-identified with as much accompany history and discussion as possible, as these materials are expressly used for teaching. Moreover, as the Foundation is a publicly donative charity, all donated materials are tax-deductible. For more information, please contact Dr. Bruce Williams at [williams@eldavis.org](mailto:williams@eldavis.org).
From the Davis-Thompson Foundation Store

What is the largest selling book ever in veterinary pathology?

You may not know this, but John King’s Necropsy Book (now in its fifth edition) has sold more copies around the world than any other book in our specialty. Pocket-sized and packed with down-to-earth knowledge when you need it (right there on the necropsy floor), it is a must-have for every pathologist and pathologist in training. This edition contains things that you won’t find in any other pathology textbook – the best autopsy techniques, classic “non-lesions” encountered in various species, even characteristic smells encountered with certain diseases, and all for only $40 (plus $8 for international shipping). To order, visit [http://store.cldavis.org](http://store.cldavis.org) or call 1-847-367-4359.

Slide Sets Available for Purchase!

Limited numbers of glass slides sets from the AAVLD Diagnostic Pathology Slide Seminars (2011-2014) are available for purchase! A listing of diagnoses for the slides within each set can be viewed here. You may obtain one or more of the sets by submitting an order form to the AAVLD Secretary-Treasurer. ([Click here](http://store.cldavis.org)). Proceeds generated from sale of slide sets will be used for pathology resident/graduate student travel awards. Slide sets from 2015 are available for $50 per set plus shipping. Please contact Dr. Alan Loynachan (alan.loynachan@uky.edu) if you require further information.

Davis-Thompson Foundation Pathology Externship

Since 1980, the Davis-Thompson Foundation lab sites have hosted more than 125 veterinary students at 8 participating diagnostic laboratories. These students usually have a strong interest in pathology itself or zoo or poultry medicine that require a strong pathology background. The Foundation is always interested in having veterinary students apply for an externship and we would like to add more externship sites that do not usually have veterinary students, to help increase their interest and knowledge of pathology with some off-campus experience. For more information, contact Dr. Jim Britt, [jobritt@sbcglobal.net; 501-912-1449](mailto:jobritt@sbcglobal.net; 501-912-1449).
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

CES 9: Cardiovascular system
Tuesday 18th - Thursday 20th July 2017

Registration for this symposium will open soon!

This symposium will provide an in-depth coverage of cardiovascular system pathology. This is an intermediate level symposium covering INHAND nomenclature for the cardiovascular system; evaluation of the cardiovascular system and species variation; drug induced vasculitis; cardiovascular pathobiology and possible mechanisms; safety pharmacology, biomarkers, clinical pathology and haematological evaluation of the cardiovascular. There will also be workshops/case presentations on cardiovascular system problems which will form an important part of the symposium.

BSTP ANNUAL SCIENTIFIC MEETING
Biologics
Thursday 16th and Friday 17th November 2017
Knutsford, Cheshire, UK

Registration will open late spring/early summer for this meeting.

Although the programme outline is still in the early stages, it is envisaged that there will be 4 or 5 main topics: Biologics, unexpected immuno-biologics and associated pathology, PK exposure, inhaled biologics, biologics – immune-modulators, miscellaneous session on new and emerging areas: CAR T cells.

CES 10: Endocrine system, Tuesday 5th - Thursday 7th December 2017, University of Cambridge

CES 11: Lymphoid & haemopoietic systems, March 2018

CES 12: Musculoskeletal, mammary and skin, July 2018

BSTP Annual Scientific Meeting, November 2018

BSTP – Mouse Models of Disease, December 2018

For further information on any events organised by the BSTP, please contact the BSTP Secretariat - bstpoffice@aol.com or check out the website – http://www.bstp.org.uk/bstp-events/
Diagnostic Exercise
From The Davis-Thompson Foundation*

Case #: 76 Month: January Year: 2017

Contributor: Federico Cifuentes, MV, MSc, Dr. Cs., Assis. Prof. Veterinary Pathology, Faculty of Veterinary Sciences, Universidad de Chile, Chile. Consuelo Foerster, MV, Staff Veterinarian, National Zoo, Santiago, Chile. Claudio Lecocq, MV, Veterinary Pathologist, Agricultural and Livestock Service, Government of Chile.

Clinical History: An adult male Darwin's or Lesser Rhea (Rhea pennata – locally known as ñandu) showed claudication of the right leg. Clinical evaluation revealed multiple to coalescing, 1 to 5 cm diameter, nodular dermal masses on wings, limbs, thoracic and lumbar areas. At necropsy, several round, well delimited, white to tan, 1 to 3 cm diameter masses in different organs were found. In the oropharynx, at the base of the tongue, two contiguous, pedunculated, ulcerated masses of approximately 1.5 cm in diameter were found.

Necropsy findings:

Follow up questions: Morphologic diagnosis, probable etiology, and differential diagnosis for the oropharyngeal masses.

Answers and more info here!

*The Diagnostic Exercises are an initiative of the Latin Comparative Pathology Group (LCPG), the Latin American subdivision of The Davis-Thompson Foundation. These exercises are contributed by members and non-members from any country of residence. - Consider submitting an exercise!
Third Uruguayan Seminar of the C.L. Davis/ S.W.Thompson Foundation
June 7th, 2017

VENUE: Agricultural Experimental Station “Dr. Mario Cassinoni”. Faculty of Agriculture. National Road N°3 “General Artigas”, km 363. Paysandú, Uruguay.

ORGANIZERS: Paysandú Veterinary Association, CL Davis/SW Thompson Foundation (Uruguayan Sub-Division), Latin Comparative Pathology Group, National Institute of Agricultural Research-INIA; Veterinary Faculty and DILAVE Northwest Regional Laboratory.

LECTURER: Donal O’Toole, Wyoming Diagnostic Laboratory (USA)

TOPICS: - Diseases of replacement calves
             - Cattle respiratory diseases
             - Gross pathology wet lab

REGISTRATION: Paysandu Veterinary Association - cmvpdu@adinet.com.uy. $ 45; limited seats available (40)

CONTACTS: Dr. Rodolfo Rivero (rrivero@mgap.gub.uy), Dr. Carolina Matto (cmatto@mgap.gub.uy), Dr. Lourdes Adrien (lourdesadrien@gmail.com).
18th Meeting of the Chilean Animal Clinical Pathology Society
4th Chilean Meeting of Veterinary Histopathology

June 9-11, 2017
Santiago, Chile

Lecturers

Dr. Brian Murphy
DVM. PhD. DACVP
University of California, Davis.
Oral pathology in dogs and horses
Orthopedic pathology

Dr. Katherine Marcelain
DVM. MSc. PhD.
Universidad de Chile.
Genomics
Molecular diagnosis of mammary cancer

Dr. Felipe Díaz
DVM. DMAP. PhD(c).
Universidad de Chile.
Laboratory evaluation of urolithiasis

Dr. Pilar Sepúlveda
DVM. PhD.
Universidad Austral de Chile
Metabolic evaluation in dairy cows

CONTACT INFORMATION:
Dr. Carolina Escobar: cescobar@espadiagnostico.cl
Dr. Carlos González: carlosgonzalez@unab.cl
2017 Davis-Thompson DVM Foundation Descriptive Veterinary Pathology Course
June 26-30, 2017 Oregon State University

Lectures, active learning exercises, & mock exams on:

- Gross Pathology
- Microscopic Pathology
- Gross-Micro Correlations
- Ultrastructural Pathology
- Immunohistochemistry
- Cytology for anatomic pathologists

Meet course lecturers, get individual feedback, and mingle with other trainees from around the world!

Program director: Jey Koehler, DVM, PhD, DACVP jaw0007@auburn.edu
11° Argentinean Seminar of the CL Davis - SW Thompson Foundation
8° Meeting of the permanent forum on teaching veterinary pathology

5, 6 and 7 July 2017
School of Veterinary Sciences, University of Buenos Aires
Chorroarín 280, Ciudad Autónoma de Buenos Aires, Argentina

Faculty and Topics:

Wednesday 5: Pathology of the alimentary system
Francisco A. Uzal, DVM, FRVC, MSc, PhD, Dipl. ACVP
University of California, Davis
Co-author of Alimentary system chapter, JKP Pathology of Domestic Animals, 6th edition

Thursday 6: Dermatopathology of dogs and cats
Verena K. Affolter, Dr Med Vet, PhD, Dipl. ECVP
University of California, Davis

Friday 7: Meeting of the Permanent Forum on teaching of veterinary pathology

Coordinator: Dr. Leonardo Minatel
Department of Pathology, FCV, UBA
Contact and information:
patologia@fvet.uba.ar ; lminatel@fvet.uba.ar
44th Annual Gross Pathology Course

July 10-14, 2017

Colorado State University
Fort Collins, Colorado, USA

Lectures on macroscopic pathology of:
• Horses
• Dogs and Cats
• Ruminants (Large and small)
• Marine Mammals
• Laboratory Small Animals
• Non-human Primates
• Aquatics
• Avian (Domestic and Exotic)
• Swine
• Reptiles and Amphibians
• Zoo and Wildlife Mammals

Mock Gross Exam

This course satisfies RACE CE requirements

European Division Pathology Symposium
29-30 August, 2017
Lyon Veterinary School
Lyon, France

Join us for a symposium focusing on lymphoma including lectures as well as clinical case workshops and discussions immediately before the ESVP meeting.

SPEAKERS:
Dr. Amy Durham & Dr. Thierry Marchal

Traveling Scholarship Awards
The CL Davis European Division has funds to sponsor five awardees to attend the European Division Pathology Symposium. The award will comprise a grant of €400 towards the cost of travel and accommodation. There will be no registration fee. These scholarship awards are open to veterinary pathologists in training in European veterinary schools or research institutes. Preference will be given to applicants who are studying for higher degrees or who wish to gain further qualifications in pathology. Applicants should send a Curriculum vitae giving full details of their pathology experience and career plans together with a nomination by their Head of Department to the conference organiser Dr Simon Priestnall at spriestnall@rvc.ac.uk

The symposium will be held at Université Catholique
Registration includes lunch and refreshments each day
Early registration (until June 30th): €385
After July 1st: €435

Closing date: June 30th, 2017

Registration and online payment: www.cldavis.org under the European Division

To be competent in diagnosing poultry diseases is an essential requirement for a good poultry veterinarian. So if you want to be a proficient poultry diagnostician, then you will benefit from attending this workshop.

The presentation will start with an overview of necropsy and post-mortem examination of poultry. The next part will cover gross pathology of diseases of commercially-raised chickens (broilers, broiler breeders, and table-egg layers) and backyard/hobby chickens, as well as some diseases of turkeys, game birds, and waterfowl. Gross lesions and some histopathological lesions of diagnostic poultry cases will be presented and explained. Additionally, etiology, ancillary laboratory tests, and differential diagnoses will be discussed.

Diagnosis of poultry diseases requires a combination of skill and knowledge, and it includes history, clinical signs, necropsy findings, and ancillary laboratory tests. Because gross lesions, as determined by necropsy are so fundamental to poultry disease diagnosis, poultry veterinarians must be able to recognize and interpret gross changes in organs and tissues. Necropsy findings together with clinical history often allow a presumptive diagnosis, which is very valuable in today’s intensive poultry production.

Dr. Aziz is the avian pathologist and diagnostician at Rollins Animal Disease Diagnostic Laboratory of North Carolina Department of Agriculture in Raleigh, North Carolina, USA. He has over 30 years experience in poultry health and avian pathology.
The RTP Rodent Pathology Course is a state-of-the-art biennial course that showcases local North Carolina pathology expertise as well as speakers from around the nation and world. The course is designed to provide useful information on current issues and techniques in rodent pathology to research and diagnostic pathologists, pathologists-in-training, and interested members of the research community. The eighth biennial course will focus on “Current Topics in Rodent Pathology” including reproducibility of animal research studies, developmental pathology & embryology, microbiota, humanized mouse models, and more!

Detailed information about this year’s course, including schedules, speakers, lodging, and registration, can be found on the course webpage.

Scan the QR code or visit rtprodentpathology.org.
AAZV 24th Annual
Zoo & Wildlife Pathology
Workshop 2017
In conjunction with the annual AAZV meeting
Sunday, September 24th from 8:00 AM – 5:00 PM
Dallas, Texas

The theme of this year's AAZV/Davis-
Thompson Foundation pathology
workshop will focus on fungal diseases.
Cases from pathologists from around the
world will be enlisted to illustrate the
topic of mycotic diseases throughout an
interactive morning session. The
afternoon session will include examples of
the most interesting cases pathologists
and clinicians have seen in recent years.

CALL FOR CASES

If you wish to present a case, please
email a brief description of the case
to Bruce
Rideout:(brideout@sandiegozoo.org)
by June 30th

Preference given to those cases
involving fungal diseases in zoo or
free-ranging wild animals

KEYNOTE PRESENTATION:
Emerging Fungal Diseases
in Animals and Humans
Dr. Shawn Lockhart, Ph.D., D(ABMM)
Centers for Disease Control and Prevention

Tentative cost: $175 ($100 for veterinary students), which includes thumb drive, handouts,
and refreshments. All participants must register for this course.

Remember that you are welcome to attend the Workshop even if you have not submitted a case.

The syllabus from the case write-ups should be available at least one week prior to the workshop
and can be downloaded from the Davis-Thompson Foundation website at
http://www.cldavis.org/syllabi.html. A thumb drive with the histologic case findings and syllabus
will be distributed to all presenters and registered attendees (Note: The software used to create
the images of the scanned slides and associated documents is only compatible with PCs, but Mac
users will be provided instructions on how to access case descriptions and virtual slides online).
27th Annual
Davis-Thompson Foundation
South Central Division Meeting
TAMU Galveston Campus
October 6-7, 2017

Suggested Hotels (no room block)
• Holiday Inn Resort on the Beach
  (866) 221-8591
• The San Luis Resort
  (844) 203-5351
• Hilton Galveston Island Resort

Guest Lectures:
Ocular Pathology by Ingeborg Langohr, DVM, PhD, DACVP, Louisiana State University
Gross Gastrointestinal Pathology, Fabio del Piero, DVM PhD, DACVP, Louisiana State University

• Anatomic, clinical pathology and lab animal case reports welcome

• Submit two slides and electronic write-up to Dr. Edward Dick, edick@TxBiomed.org
  Visit http://www.cldavis.org/courses/upcoming.html

Course Director:
Dr. Jim Britt, (501) 912-1449 jobritt@sbcglobal.net Register at cldavis.org

Please contact Dr. Jim Britt for further information on CE credits.
Latin Comparative Pathology Group
2016 Externship in the USA Awards

In 2016, the Latin Comparative Pathology Group (LCPG; the Latin American Sub-division of the Davis-Thompson Foundation), offered two awards to help pathologists from Latin America to complete short externships in the USA. The award consisted of a diploma and US$500. A committee integrated by Drs. Donald O’Toole (University of Wyoming), Margaret Miller (Purdue University) and Corrie Brown (University of Georgia) reviewed a large number of applications and recommended Drs. Benjamin Doncel Diaz (Colombia) and Gisele Fabrino Machado (Brazil) as the recipients of this award. Congratulations Gisele and Benjamin!

Dr. Gisele Fabrino Machado

Dr. Gisele Fabrino Machado, Professor of the School of Veterinary Medicine of São Paulo State University (UNESP), campus of Aracatuba-SP, Brazil. With the help of this award, Dr. Machado has been at Louisiana State University for an externship at the Department of Pathobiological Science during February and March 2016, under the supervision of Dr. Ingeborg Langohr. During the externship, Dr. Machado has been attending gross, histological and cytological rounds. She also has been gaining additional experience related to methods of fixation, histological processing and lesion evaluation of the eye to be applied in future studies concerning inflammatory alterations and imbalance of the immune privileged status of the eye during visceral leishmaniasis in dogs.

Dr. Benjamin Doncel

Dr. Benjamin Doncel, Professor of Veterinary Pathology, School of Veterinary Medicine, National University of Colombia. With the help of this award, Dr. Doncel traveled to California for an externship at the San Bernardino Branch of the California Animal Health and Food Safety Laboratory System (CAHFS), UC Davis, in January 2017, under the supervision of Dr. Francisco (Paco) Uzal. During his externship, Dr. Doncel observed diagnostic activities at the CAHFS laboratory and attended gross and histology rounds. He also carried out a research project on polycystic liver disease in alpacas.
Become a member of the Latin Comparative Pathology Group

LCPG:
- Provides Diagnostic Exercises
- Offers travel awards
- Coordinates externships in US labs for Latin Americans
- Organizes and lectures in Latin American seminars and courses

Learn more at: www.cldavis.org/lcpg_english

LCPG is the proud Latin American Division of the Davis/Thompson Foundation!

Contact Francisco.carvallo@gmail.com to join LCPG!

Membership fees:
$50 - Professionals in US, Canada and Europe
$30 - Professionals in Latin America
$25 - Students in US, Canada and Europe
$15 - Students in Latin America
It was a night of smiles and photographs, as UCDavis’ Linda Lowenstine and Katie Colgrove attest.

**BOOKSTORE ORDERS**

We occasionally have problems with overseas credit card orders through the bookstore. If you find you cannot place your order please email, call or fax the Foundation at phone: 847-367-4359; fax: 847-247-1869; email: cldavisdvm@comcast.net. Make sure you include your name, address, phone, email address and credit card number with expiration date and we will ship your purchase immediately.

**CALENDAR OF UPCOMING EVENTS**

**June 2017**
- 06/07 – 3rd Uruguayan Seminar of the CL Davis - SW Thompson Foundation
- 06/09-06/11 - 4th Chilean Meeting of Veterinary Histopathology
- 06/26-06/30 – Descriptive Veterinary Pathology Course – Oregon State University

**July 2017**
- 07/05-07/07 – 11th Argentinean Seminar of the CL Davis – SW Thompson Foundation
- 07/10-07/14 – 44th Annual Gross Pathology Course – Colorado State University, Fort Collins, CO
- 07/17-07/20 - 18th Brazilian Meeting on Veterinary Pathology and 10th Brazilian Symposium of the CL Davis - SW Thompson Foundation
- 07/29-08/04 – 2017 CLASS/POLA, University of Pennsylvania, PA

**August 2017**
- 08/22-08/24 - 2nd Peruvian Seminar of the CL Davis - SW Thompson Foundation
- 08/29-08/30 – European Division Pathology Symposium – Lyon, France
- 08/30-09/01 - 5th Colombian Seminar of Veterinary Pathology and Ichtiopathology of the CL Davis - SW Thompson Foundation

**September 2017**
- 09/04 – Post-mortem Examination of Poultry and Diagnostic Gross Pathology of Poultry Diseases, Edinburgh, Scotland
- 09/17-09/19 – 8th Biennial RTP Rodent Pathology Course – Raleigh, NC
- 09/20-09/22 - 1st Equatorian Seminar of the CL Davis - SW Thompson Foundation
- 09/24 – Zoo & Wildlife Pathology Workshop – Dallas, TX

**October 2017**
- 10/06-10/07 – 27th Annual Davis-Thompson Foundation, South Central Division Meeting, TAMU, Galveston, TX
