Noah’s Arkive Sails to New Home at Davis-Thompson Foundation

Since the early 1980s, Noah’s Arkive has educated almost every veterinary pathologist around the globe. Designed as a publishable image archive by University of Georgia pathologists Wayne Crowell and Dave Tyler, Noah’s Arkive has grown to over 33,000 images cataloging all facets of veterinary medicine.

Noah’s Arkive is undergone many changes over the years. It changed with technology—initially published as a laserdisk, it became available over time as a collection of DVDs, and finally in its current iteration as an online web database. As its contributors grew, images from related disciplines including clinical pathology, radiology, and histology were added to its ranks.

At the December 2017 meeting of the ACVP in New Orleans, UGA pathology professor and department head Keith Harris solidified an agreement with his former resident, Dr. Bruce Williams, CEO of the Foundation, to take over additional development, management, and the online service of this invaluable resource. April 1 was identified as the initial rollout date for Phase 1, which would bring Noah’s Arkive under the banner of the Foundation who would release it for the first time free of charge to the general public.
“Noah’s Arkive has always had a special place in my heart. I learned gross pathology from the laserdisk version, and are used later versions to teach my residents and watch them teach residents of their own.” says Dr. Williams. “We are absolutely thrilled to provide a new home for this wonderful collection, and to make it available to even more veterinarians around the world.”

The Foundation has met its goals for phase 1 within April rollout to the general public. The 33,000 images of Noah’s Arkive will be available absolutely free to pathologists around the world at http://noah’sarkive.cldavis.org. The transfer and programming of a new Noah’s Arkive site is the brainchild of Dr. Michael Dark, associate professor of pathology at the University of Florida, and a major driver in recent changes in the Foundation’s electronic presence. “We took the code from Georgia and modified it to remove the subscription end of things and work with the Foundation’s servers. Everyone from Georgia’s group, especially Yibin Liao, one of their programmers, was very helpful in making the transition happen. It’s been great to be able to contribute to a resource I’ve used since I started my residency.”

But this is only the beginning for a “new” Noah’s Arkive. Phase 2, plan for the fall of 2017, will add additional online functionality to allow the Foundation’s editorial team the ability to add and delete slides and metadata within the collection. “We have a large collection of slides awaiting inclusion.” says Dr. Williams. A number of pathologists who have retired over the last few years have donated their collections, and many of these slides will add immeasurably to Noah’s Arkive. Their addition to Noah’s Arkive, already the largest pathology image database in the world, will give their work the exposure it deserves.” In the spring of 2018, Phase 3 will allow any pathologist or veterinarian the ability to contribute their own images to Noah’s Arkive. “These images will be reviewed for our editors for potential inclusion, so we are truly only adding the best and most relevant images, and continuing to foster the sense of community that has made Noah’s Arkive so great.”

What about the use of the images? Dr. Williams explains, “Anyone who teaches veterinary medicine knows how important these images have been and will continue to be in the future. The Foundation has no interest in owning copyright of these images; the copyright to these images continues to rest in the hands of the contributors, who grant the Foundation a limited license as an outlet for their distribution. The images in the database will be incorporated only at a resolution that looks good in PowerPoint lectures and student handouts; those seeking to use the images in publications such as journals and textbooks will have to contact the contributors to see if appropriate high-resolutions images are available. The listing of contributors in the metadata for each image will facilitate that.” Webmaster Mike Dark adds, “At the moment, things are fairly basic, but we hope to add even more features, such as being able to rate images in order to highlight ones the best as well as those that possibly may not be making the grade, which over time increases the quality of the Arkive and makes it even more useful and user-friendly in the future. If folks have suggestions, please pass them along”.

The Foundation wants to thank the University of Georgia and the many pathologists and contributors at UGA and around the world for the development of this wonderful collection, and we are truly honored to play a part in its continuing evolution.

- Bruce Williams, DVM
Retiring?

Have slides left over from your recent slide seminar? Just looking to free up some storage space? The Foundation is looking for additional glass slides, kodachromes and other similar materials for its Correspondence Division and Study Centers. All materials should be well-identified with as much accompany history and discussion as possible, as these materials are expressly used for teaching. Moreover, as the Foundation is a publicly donative charity, all donated materials are tax-deductible. For more information, please contact Dr. Bruce Williams at williams@cldavis.org.

From the Davis-Thompson Foundation Store

What is the largest selling book ever in veterinary pathology?

You may not know this, but John King’s Necropsy Book (now in its fifth edition) has sold more copies around the world than any other book in our specialty. Pocket-sized and packed with down-to-earth knowledge when you need it (right there on the necropsy floor), it is a must-have for every pathologist and pathologist in training. This edition contains things that you won’t find in any other pathology textbook – the best autopsy techniques, classic “non-lesions” encountered in various species, even characteristic smells encountered with certain diseases, and all for only $40 (plus $8 for international shipping).

To order, visit http://store.cldavis.org or call 1-847-367-4359.
Slide Sets Available for Purchase!

Limited numbers of glass slides sets from the AAVLD Diagnostic Pathology Slide Seminars (2011-2014) are available for purchase! A listing of diagnoses for the slides within each set can be viewed here. You may obtain one or more of the sets by submitting an order form to the AAVLD Secretary-Treasurer. (Click here). Proceeds generated from sale of slide sets will be used for pathology resident/graduate student travel awards. Slide sets from 2015 are available for $50 per set plus shipping. Please contact Dr. Alan Loynachan (alan.loynachan@uky.edu) if you require further information.

Davis-Thompson Foundation Pathology Externship

Since 1980, the Davis-Thompson Foundation lab sites have hosted more than 125 veterinary students at 8 participating diagnostic laboratories. These students usually have a strong interest in pathology itself or zoo or poultry medicine that require a strong pathology background. The Foundation is always interested in having veterinary students apply for an externship and we would like to add more externship sites that do not usually have veterinary students, to help increase their interest and knowledge of pathology with some off-campus experience. For more information, contact Dr. Jim Britt, jobritt@sbcglobal.net; 501-912-1449.

Got Pictures of a Foundation Meeting?

We’d love them for the newsletter! Attending a meeting, using a publication, spending time in a Foundation study center anywhere in the world – it all makes the newsletter a more interesting read and shows how much we are doing around the world. Please send any digital images to Foundation newsletter to info@clldavis.org and thanks!!!
Attention Students!

Society of Toxicologic Pathology Annual Meeting Abstract and Award Submissions
Deadline: April 1st!

Abstracts
If you wish to submit an abstract to showcase at the STP 36th Annual Symposium please visit the STP 36th Annual Symposium Abstracts Page for directions on how to do so. Please note: to qualify for most awards you must submit an abstract.

Student Travel Awards
Student Travel Awards are available to Graduate Students for participation in the Annual Symposium of the Society of Toxicologic Pathology. Each of the students who is chosen will receive a stipend (approximately $1,000—varies yearly) to defray travel, and lodging costs associated with attending the convention, complimentary meeting registration, and complimentary student membership (for the following year).

STP Young Investigator Awards
Young Investigator Awards (1st, $500; 2nd, $250; 3rd, $100) are also presented at the STP meeting for the top three student poster abstracts. When you submit an abstract online, please check the appropriate box to indicate your interest in applying for the Young Investigator Award.

The IATP Charles Capen Trainee Award
The IATP Charles Capen Trainee Award recognizes Dr. Charles Capen and his legacy as a researcher, teacher, and mentor to the pathology and toxicology communities spanning more than four decades. Dr. Capen was recognized worldwide as an exceptional leader in veterinary and biomedical research. He was a highly regarded mentor to graduate students and postdoctoral scientists. His students and trainees are now leaders throughout academia, government, and industry and have contributed significantly to his reputation as an outstanding teacher and research mentor.

Student/Mentor Mixer
The Student/Mentor Mixer will be held on Sunday, June 25, 2017 from 7:00 PM-8:30 PM during the STP Annual Meeting in Montréal, Québec, Canada. Enter our free raffle to win pathology textbooks signed by the authors and editors in attendance! Network with tox path mentors and fellow trainees. Light hors d’oeuvres and refreshments will be provided. It’s an event you don’t want to miss! So save the date and make sure to RSVP through registration.

Student Outing
Information on the 36th Annual Symposium Student Outing Coming Soon! For details on last year’s event please visit STP’s 36th Annual Symposium Student Events Page.

MORE INFORMATION HERE

Au plaisir de vous y voir/We look forward to seeing you there!
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

CES 9: Cardiovascular system
Tuesday 18th - Thursday 20th July 2017

Registration for this symposium will open soon!

This symposium will provide an in-depth coverage of cardiovascular system pathology. This is an intermediate level symposium covering INHAND nomenclature for the cardiovascular system; evaluation of the cardiovascular system and species variation; drug induced vasculitis; cardiovascular pathobiology and possible mechanisms; safety pharmacology, biomarkers, clinical pathology and haematological evaluation of the cardiovascular. There will also be workshops/case presentations on cardiovascular system problems which will form an important part of the symposium.

BSTP ANNUAL SCIENTIFIC MEETING
Biologics
Thursday 16th and Friday 17th November 2017
Knutsford, Cheshire, UK

Registration will open late spring/early summer for this meeting.

Although the programme outline is still in the early stages, it is envisaged that there will be 4 or 5 main topics: Biologics, unexpected immuno-biologics and associated pathology, PK exposure, inhaled biologics, biologics – immune-modulators, miscellaneous session on new and emerging areas: CAR T cells.

CES 10: Endocrine system, Tuesday 5th - Thursday 7th December 2017, University of Cambridge

CES 11: Lymphoid & haemopoietic systems, March 2018

CES 12: Musculoskeletal, mammary and skin, July 2018

BSTP Annual Scientific Meeting, November 2018

BSTP – Mouse Models of Disease, December 2018

For further information on any events organised by the BSTP, please contact the BSTP Secretariat - bstpoffice@aol.com or check out the website – http://www.bstp.org.uk/bstp-events/
Diagnostic Exercise
From The Davis-Thompson Foundation*

Case #: 75  Month: December Year: 2016

Contributor: Renata Dalcol Mazaro, DVM and collaborators from the Laboratory of Veterinary Pathology, Universidade Federal de Santa Maria (UFSM), Santa Maria, Rio Grande do Sul, Brazil.

Clinical History: This young adult, female canine presented with apathy, anorexia, mild mucosal icterus and blackish diarrhea. It died soon after the clinical exam. Other three dogs from the same owner had presented similar clinical signs. All four dogs died between 24 and 48 hours after the onset of clinical signs. These dogs were from a farm and were fed polenta, a corn flour-based diet.

Necropsy findings:

Follow up questions:
1) Microscopic findings, 2) Morphologic diagnoses, 3) Etiologic diagnosis, 4) Etiology, and 5) Name the condition.

Answers and more info here!

*The Diagnostic Exercises are an initiative of the Latin Comparative Pathology Group (LCPG), the Latin American subdivision of The Davis-Thompson Foundation. These exercises are contributed by members and non-members from any country of residence. - Consider submitting an exercise!
Third Uruguayan Seminar of the C.L. Davis/ S.W.Thompson Foundation  
June 7th, 2017

VENUE: Agricultural Experimental Station “Dr. Mario Cassinoni”. Faculty of Agriculture. National Road N°3 “General Artigas”, km 363. Paysandú, Uruguay.

ORGANIZERS: Paysandú Veterinary Association, CL Davis/SW Thompson Foundation (Uruguayan Sub-Division), Latin Comparative Pathology Group, National Institute of Agricultural Research-INIA; Veterinary Faculty and DILAVE Northwest Regional Laboratory.

LECTURER: Donal O’Toole, Wyoming Diagnostic Laboratory (USA)

TOPICS: - Diseases of replacement calves  
- Cattle respiratory diseases  
- Gross pathology wet lab

REGISTRATION: Paysandu Veterinary Association - cmvpdu@adinet.com.uy. $ 45; limited seats available (40)

CONTACTS: Dr. Rodolfo Rivero (rrivero@mgap.gub.uy), Dr. Carolina Matto (cmatto@mgap.gub.uy), Dr. Lourdes Adrien (lourdesadrien@gmail.com).
18th Meeting of the Chilean Animal Clinical Pathology Society
4th Chilean Meeting of Veterinary Histopathology

June 9-11, 2017
Santiago, Chile

Lecturers

Dr. Brian Murphy
DVM. Ph.D. DACVP.
University of California, Davis.
Oral pathology in dogs and horses
Orthopedic pathology

Dr. Katherine Marcelain
DVM. MSc. Ph.D.
Universidad de Chile.
Genomics
Molecular diagnosis of mammary cancer

Dr. Felipe Díaz
DVM. DMAP. PhD(c).
Universidad de Chile.
Laboratory evaluation of urolithiasis

Dr. Pilar Sepúlveda
DVM. PhD.
Universidad Austral de Chile
Metabolic evaluation in dairy cows

CONTACT INFORMATION:
Dr. Carolina Escobar: cescobar@espadiagnostico.cl
Dr. Carlos González: carlosgonzalez@unab.cl
2017 Davis-Thompson DVM Foundation
Descriptive Veterinary Pathology Course
June 26-30, 2017 Oregon State University

Lectures, active learning exercises, & mock exams on:

- Gross Pathology
- Microscopic Pathology
- Gross-Micro Correlations
- Ultrastructural Pathology
- Immunohistochemistry
- Cytology for anatomic pathologists

Meet course lecturers, get individual feedback, and mingle with other trainees from around the world!

For more information, including tuition, venue, and accommodations, as well as links to online registration, please visit www.cldavis.org

Program director: Jey Koehler, DVM, PhD, DACVP jaw0007@auburn.edu
11° Argentinean Seminar of the CL Davis - SW Thompson Foundation
8° Meeting of the permanent forum on teaching veterinary pathology

5, 6 and 7 July 2017
School of Veterinary Sciences, University of Buenos Aires
Chorroarín 280, Ciudad Autónoma de Buenos Aires, Argentina

Faculty and Topics:

**Wednesday 5: Pathology of the alimentary system**
**Francisco A. Uzal**, DVM, FRVC, MSc, PhD, Dipl. ACVP
University of California, Davis
Co-author of Alimentary system chapter, JKP Pathology of Domestic Animals, 6th edition

**Thursday 6: Dermatopathology of dogs and cats**
**Verena K. Affolter**, Dr Med Vet, PhD, Dipl. ECVP
University of California, Davis
Co-author of the book Skin diseases of the dog and cat.
Clinical and Histopathologic diagnosis.

**Friday 7: Meeting of the Permanent Forum on teaching of veterinary pathology**

Coordinator: Dr. Leonardo Minatel
Department of Pathology, FCV, UBA
Contact and information:
patologia@fvet.uba.ar; lminatel@fvet.uba.ar
44th Annual Gross Pathology Course

July 10-14, 2017
Colorado State University
Fort Collins, Colorado, USA

Lectures on macroscopic pathology of:
• Horses
• Dogs and Cats
• Ruminants (Large and small)
• Marine Mammals
• Laboratory Small Animals
• Non-human Primates
• Aquatics
• Avian (Domestic and Exotic)
• Swine
• Reptiles and Amphibians
• Zoo and Wildlife Mammals

Mock Gross Exam

This course satisfies RACE CE requirements

For more information, including tuition, venue, schedule, and accommodations visit:

</table>
To be competent in diagnosing poultry diseases is an essential requirement for a good poultry veterinarian. So if you want to be a proficient poultry diagnostician, then you will benefit from attending this workshop.

The presentation will start with an overview of necropsy and post-mortem examination of poultry. The next part will cover gross pathology of diseases of commercially-raised chickens (broilers, broiler breeders, and table-egg layers) and backyard/hobby chickens, as well as some diseases of turkeys, game birds, and waterfowl. Gross lesions and some histopathological lesions of diagnostic poultry cases will be presented and explained. Additionally, etiology, ancillary laboratory tests, and differential diagnoses will be discussed.

Diagnosis of poultry diseases requires a combination of skill and knowledge, and it includes history, clinical signs, necropsy findings, and ancillary laboratory tests. Because gross lesions, as determined by necropsy are so fundamental to poultry disease diagnosis, poultry veterinarians must be able to recognize and interpret gross changes in organs and tissues. Necropsy findings together with clinical history often allow a presumptive diagnosis, which is very valuable in today’s intensive poultry production.

**Dr. Aziz** is the avian pathologist and diagnostician at Rollins Animal Disease Diagnostic Laboratory of North Carolina Department of Agriculture in Raleigh, North Carolina, USA. He has over 30 years experience in poultry health and avian pathology.
27th Annual
Davis-Thompson Foundation
South Central Division Meeting

Activities of the Latin Comparative Pathology Group during the 50 Annual Meeting of the ACVP/ASVCP December 3-7 2016, New Orleans

Scientific session presentations

Three excellent scientific presentations (all in English) were given by Drs. Patricia (Patty) Pesavento, UC Davis, Guillermo Rimoldi, UC Davis (currently Clemson Veterinary Diagnostic Center) and Franklin Riet Correa, National Institute of Agricultural Research, Colonia, Uruguay.

Dr. Pesavento (invited speaker) presented on Polyomaviruses and disease, while Drs. Rimoldi and Riet Correa gave presentations on West Nile virus in sheep and Diseases of the central nervous system of cattle in Brazil, respectively. The presentations were very well attended by close to 40 colleagues and generated great enthusiasm in the audience, which was manifested by numerous questions and comments after each presentation.

Dr. Santiago Diab, UC Davis, received the award for the best LCPG Diagnostic Exercise on Mycoplasma bovis pneumonia in cattle, published in 2016.

Drs. Ramon A. Wong (Mexico) and Ileana C. Miranda (Brazil) received each a Travel Award to attend the ACVP annual meeting and present their work.

LCPG Awardees at the Davis/Thompson award ceremony

This year, several members of the LCPG received awards during the Davis/Thompson Foundation ceremony.

Dr. Santiago Diab receiving the award for the Best Diagnostic Exercise of 2016 from Scott Dana, president of the Davis/Thompson Foundation and Paco Uzal, President-elect of the LCPG.

Drs. Ramon Wong (left photo) and Ileana Miranda (right photo) receiving Travel awards from Scott Dana, president of the Davis/Thompson Foundation and Paco Uzal, President-elect of the LCPG.

LCPG business meeting

During the business meeting of the LCPG Dr. Ingeborg Langohr, outgoing president of the group, passed on the baton to the incoming president, Dr. Ana Alcaraz. Dr. Francisco (Paco) Uzal is the new president-elect of the LCPG. A plaque was given to Dr. Langohr in appreciation of her work as president of the group for the past two years.
## CALENDAR OF UPCOMING EVENTS

### June 2017
- 06/07 – 3rd Uruguayan Seminar of the CL Davis - SW Thompson Foundation
- 06/09-06/11 - 4th Chilean Meeting of Veterinary Histopathology
- 06/26-06/30 – Descriptive Veterinary Pathology Course – Oregon State University

### July 2017
- 07/05-07/07 – 11th Argentinean Seminar of the CL Davis – SW Thompson Foundation
- 07/10-07/14 – 44th Annual Gross Pathology Course – Colorado State University, Fort Collins, CO
- 07/17-07/20 - 18th Brazilian Meeting on Veterinary Pathology and 10th Brazilian Symposium of the CL Davis - SW Thompson Foundation
- 07/29-08/04 – 2017 CLASS/POLA, University of Pennsylvania, PA

### August 2017
- 08/22-08/24 - 2nd Peruvian Seminar of the CL Davis - SW Thompson Foundation
- 08/30-09/01 - 5th Colombian Seminar of Veterinary Pathology and Ichtiopathology of the CL Davis - SW Thompson Foundation

### September 2017
- 09/04 – Post-mortem Examination of Poultry and Diagnostic Gross Pathology of Poultry Diseases, Edinburgh, Scotland
- 09/20-09/22 - 1st Equatorian Seminar of the CL Davis - SW Thompson Foundation

### October 2017
- 10/06-10/07 – 27th Annual Davis-Thompson Foundation, South Central Division Meeting, TAMU, Galveston, TX

### BOOKSTORE ORDERS
We occasionally have problems with overseas credit card orders through the bookstore. If you find you cannot place your order please email, call or fax the Foundation at phone: 847-367-4359; fax: 847-247-1869; email: cldavisdvm@comcast.net. Make sure you include your name, address, phone, email address and credit card number with expiration date and we will ship your purchase immediately.
