Northwest Vet Path Conference Packs MedImmune for Second Year in a Row

The Northeast Veterinary Pathology Conference, co-sponsored by the Foundation, the Joint Pathology Center, MedImmune, and Charles River Laboratories, was held at the Gaithersburg, Maryland campus of MedImmune LLC, on April 1st and 2nd, just in time for the Cherry Blossom Festival in neighboring Washington D.C.

Approximately 70 residents and veterinary pathologists from academia, industry, and government service across 10 different states participated in the conference. East coast veterinary pathology training programs were well-represented, with attendees from the Joint Pathology Center, North Carolina State University, Cornell, Tufts, and Johns Hopkins. There were 23 case presentations with a focus on wildlife and exotic species ranging from a millipede (yes, a millipede) to a wallaby. Domestic and laboratory animals were not neglected—case presentations also encompassed dogs, cats, rats and non-human primates with conditions ranging from the “classic” to the “crazy.”

Dr. Linden Craig, of the University of Tennessee, our invited speaker, gave two fantastic lectures on the pathology of non-domestic species, loaded with board-relevant material and practice integrative-type test questions. Attendees remained stuffed with food and appropriately caffeinated throughout the conference thanks to donations from Charles River and Novartis Biomedical.
On Saturday evening, participants gathered at the Dogfish Head Alehouse for a casual dinner and a large selection of craft beer from the Dogfish Head Brewery. The 2017 Northeastern Veterinary Pathology Conference was an unmitigated success! Stay tuned for details on next year’s conference…

Erin Ball, Course Director, Joint Pathology Center

COL Tony Alves of the Joint Pathology Center kicks off the two-day conference, former JPC Chair Ed Stevens talks with Charles River’s Keven McDorman, and Linden Craig, our invited speaker and previous winner of the Foundation’s Sam Thompson Lectureship Award.

SAVE THE DATE!
Friday, September 9, 2017
Northeast Sub-Division Day Seminar - ANTIBODY DRUG CONJUGATES
Stay tuned for more details!
Sponsored and hosted by Bristol Meyers Squibb, Lawrenceville, New Jersey
Host seminar director: Dr. Richard Westhouse (richard.westhouse@bms.com; tel. 609-252-4927)
Sub-Division Program Director: Dr. Zadok Ruben (zruben@patoximed.com; tel. 908-233-9740).

Retiring?

Have slides left over from your recent slide seminar? Just looking to free up some storage space? The Foundation is looking for additional glass slides, kodachromes and other similar materials for its Correspondence Division and Study Centers. All materials should be well-identified with as much accompany history and discussion as possible, as these materials are expressly used for teaching. Moreover, as the Foundation is a publicly donative charity, all donated materials are tax-deductible. For more information, please contact Dr. Bruce Williams at williams@eldavis.org.
From the Davis-Thompson Foundation Store

What is the largest selling book ever in veterinary pathology?

You may not know this, but John King’s Necropsy Book (now in its fifth edition) has sold more copies around the world than any other book in our specialty. Pocket-sized and packed with down-to-earth knowledge when you need it (right there on the necropsy floor), it is a must-have for every pathologist and pathologist in training. This edition contains things that you won’t find in any other pathology textbook – the best autopsy techniques, classic “non-lesions” encountered in various species, even characteristic smells encountered with certain diseases, and all for only $40 (plus $8 for international shipping). To order, visit http://store.cldavis.org or call 1-847-367-4359.

---

Slide Sets Available for Purchase!

Limited numbers of glass slides sets from the AAVLD Diagnostic Pathology Slide Seminars (2011-2014) are available for purchase! A listing of diagnoses for the slides within each set can be viewed here. You may obtain one or more of the sets by submitting an order form to the AAVLD Secretary-Treasurer. (Click here). Proceeds generated from sale of slide sets will be used for pathology resident/graduate student travel awards. Slide sets from 2015 are available for $50 per set plus shipping. Please contact Dr. Alan Loynachan (alan.loynachan@uky.edu) if you require further information.

---

Davis-Thompson Foundation Pathology Externship

Since 1980, the Davis-Thompson Foundation lab sites have hosted more than 125 veterinary students at 8 participating diagnostic laboratories. These students usually have a strong interest in pathology itself or zoo or poultry medicine that require a strong pathology background. The Foundation is always interested in having veterinary students apply for an externship and we would like to add more externship sites that do not usually have veterinary students, to help increase their interest and knowledge of pathology with some off-campus experience. For more information, contact Dr. Jim Britt, jobritt@sbcglobal.net; 501-912-1449.
BRITISH SOCIETY OF TOXICOLOGICAL PATHOLOGY

CES 9: Cardiovascular system
Tuesday 18th - Thursday 20th July 2017

Registration for this symposium will open soon!

This symposium will provide an in-depth coverage of cardiovascular system pathology. This is an intermediate level symposium covering INHAND nomenclature for the cardiovascular system; evaluation of the cardiovascular system and species variation; drug induced vasculitis; cardiovascular pathobiology and possible mechanisms; safety pharmacology, biomarkers, clinical pathology and haematological evaluation of the cardiovascular. There will also be workshops/case presentations on cardiovascular system problems which will form an important part of the symposium.

BSTP ANNUAL SCIENTIFIC MEETING
Biologics
Thursday 16th and Friday 17th November 2017
Knutsford, Cheshire, UK

Registration will open late spring/early summer for this meeting.

Although the programme outline is still in the early stages, it is envisaged that there will be 4 or 5 main topics: Biologics, unexpected immuno-biologics and associated pathology, PK exposure, inhaled biologics, biologics – immune-modulators, miscellaneous session on new and emerging areas: CAR T cells.

CES 10: Endocrine system, Tuesday 5th - Thursday 7th December 2017, University of Cambridge

CES 11: Lymphoid & haemopoietic systems, March 2018

CES 12: Musculoskeletal, mammary and skin, July 2018

BSTP Annual Scientific Meeting, November 2018

BSTP – Mouse Models of Disease, December 2018

For further information on any events organised by the BSTP, please contact the BSTP Secretariat - bstpoffice@aol.com or check out the website – http://www.bstp.org.uk/bstp-events/
Diagnostic Exercise
From The Davis-Thompson Foundation*

Case #: 76 Month: January Year: 2017

Contributor: Catherine A. Picut, VMD, JD, DACVP, DABT, FIATP, Senior Staff Pathologist, Charles River- Pathology Associates, Durham, N.C.

Clinical History: This male Sprague Dawley Rat (Crl:CD(SD)) was 17 weeks old at the end of 14 day recovery from a routine 28-day study. This particular rat was from the adjuvant-control group and did not receive the test article. There were no clinical signs and the animal survived until scheduled sacrifice.

Microscopic Findings:

Figure 1. Rat, kidney; H&E, 0.75x objective magnification.

Follow-up questions: Morphologic diagnosis, what other organ would likely be affected, cause, etiologic diagnosis, name of this condition.

Answers and more info here!

*The Diagnostic Exercises are an initiative of the Latin Comparative Pathology Group (LCPG), the Latin American subdivision of The Davis-Thompson Foundation. These exercises are contributed by members and non-members from any country of residence. - Consider submitting an exercise!
Third Uruguayan Seminar of the C.L. Davis/ S.W. Thompson Foundation
June 7th, 2017

VENUE: COMEPA Hospital Conference Hall, Colón 1224, Paysandú, Uruguay.
ORGANIZERS: Paysandú Veterinary Association (CMVP), CL Davis/SW Thompson Foundation (Uruguayan Sub-Division), Latin Comparative Pathology Group, National Institute of Agricultural Research-INIA; Veterinary Faculty and DILAVE Northwest Regional Laboratory.
LECTURERS: Donal O’Toole, Wyoming Diagnostic Laboratory, USA; Rodolfo Rivero, DILAVE, Uruguay; Franklin Riet, INIA, Uruguay; Fernando Dutra, DILAVE, Uruguay; Cristina Easton, DILAVE, Uruguay and Deborah Cesar, Uruguay.

11° Argentinean Seminar of the CL Davis - SW Thompson Foundation
8° Meeting of the permanent forum on teaching veterinary pathology

5, 6 and 7 July 2017
School of Veterinary Sciences, University of Buenos Aires
Chorroarín 280, Ciudad Autónoma de Buenos Aires, Argentina

Faculty and Topics:

**Wednesday 5: Pathology of the alimentary system**
Francisco A. Uzal, DVM, FRVC, MSc, PhD, Dipl. ACVP
University of California, Davis
Co-author of Alimentary system chapter, JKP Pathology of Domestic Animals, 6th edition

**Thursday 6: Dermatopathology of dogs and cats**
Verena K. Affolter, Dr Med Vet, PhD, Dipl. ECVP
University of California, Davis

**Friday 7: Meeting of the Permanent Forum on teaching of veterinary pathology**

Coordinator: Dr. Leonardo Minatel
Department of Pathology, FCV, UBA
Contact and information: patologia@fvet.uba.ar ; lminatel@fvet.uba.ar
44th Annual Gross Pathology Course

July 10-14, 2017
Colorado State University
Fort Collins, Colorado, USA

Lectures on macroscopic pathology of:
- Horses
- Dogs and Cats
- Ruminants (Large and small)
- Marine Mammals
- Laboratory Small Animals
- Non-human Primates
- Aquatics
- Avian (Domestic and Exotic)
- Swine
- Reptiles and Amphibians
- Zoo and Wildlife Mammals

Mock Gross Exam

This course satisfies RACE CE requirements

European Division Pathology Symposium
29-30 August, 2017
Lyon Veterinary School
Lyon, France

Join us for a symposium focusing on lymphoma including lectures as well as clinical case workshops and discussions immediately before the ESVP meeting.

SPEAKERS:
Dr. Amy Durham & Dr. Thierry Marchal

The symposium will be held at Université Catholique
Registration includes lunch and refreshments each day
Early registration (until June 30th): €385
After July 1st: €435

Traveling Scholarship Awards
The CL Davis European Division has funds to sponsor five awardees to attend the European Division Pathology Symposium. The award will comprise a grant of €400 towards the cost of travel and accommodation. There will be no registration fee. These scholarship awards are open to veterinary pathologists in training in European veterinary schools or research institutes. Preference will be given to applicants who are studying for higher degrees or who wish to gain further qualifications in pathology. Applicants should send a Curriculum vitae giving full details of their pathology experience and career plans together with a nomination by their Head of Department to the conference organiser Dr Simon Priestnall at spriestnall@rvc.ac.uk
Closing date: June 30th, 2017

Registration and online payment: www.cldavis.org under the European Division
5TH INTERNATIONAL COURSE/SEMINAR OF VETERINARY AND FISH PATHOLOGY

Pre-conference workshop:

“Post-mortem Examination of Poultry and Diagnostic Gross Pathology of Poultry Diseases”

A PowerPoint Presentation by:

Dr. Tahseen Aziz, DVM, MS, PhD, Diplomate ACPV,
Veterinary Pathologist and Diagnostician (Avian)

Date: Monday, September 4th, 2017
Time: 10:00 AM – 1:00 PM
Place: Edinburgh International Conference Centre
Registration Fee: £75 per person (Register on-line)

To be competent in diagnosing poultry diseases is an essential requirement for a good poultry veterinarian. So if you want to be a proficient poultry diagnostician, then you will benefit from attending this workshop.

The presentation will start with an overview of necropsy and post-mortem examination of poultry. The next part will cover gross pathology of diseases of commercially-raised chickens (broilers, broiler breeders, and table-egg layers) and backyard/hobby chickens, as well as some diseases of turkeys, game birds, and waterfowl. Gross lesions and some histopathological lesions of diagnostic poultry cases will be presented and explained. Additionally, etiology, ancillary laboratory tests, and differential diagnoses will be discussed.

Diagnosis of poultry diseases requires a combination of skill and knowledge, and it includes history, clinical signs, necropsy findings, and ancillary laboratory tests. Because gross lesions, as determined by necropsy are so fundamental to poultry disease diagnosis, poultry veterinarians must be able to recognize and interpret gross changes in organs and tissues. Necropsy findings together with clinical history often allow a presumptive diagnosis, which is very valuable in today’s intensive poultry production.

Dr. Aziz is the avian pathologist and diagnostician at Rollins Animal Disease Diagnostic Laboratory of North Carolina Department of Agriculture in Raleigh, North Carolina, USA. He has over 30 years experience in poultry health and avian pathology.
The RTP Rodent Pathology Course is a state-of-the-art biennial course that showcases local North Carolina pathology expertise as well as speakers from around the nation and world. The course is designed to provide useful information on current issues and techniques in rodent pathology to research and diagnostic pathologists, pathologists-in-training, and interested members of the research community. The eighth biennial course will focus on “Current Topics in Rodent Pathology” including reproducibility of animal research studies, developmental pathology & embryology, microbiota, humanized mouse models, and more!

Detailed information about this year’s course, including schedules, speakers, lodging, and registration, can be found on the course webpage.

Scan the QR code or visit rtprodentpathology.org.
AAZV 24th Annual
Zoo & Wildlife Pathology
Workshop 2017

In conjunction with the annual AAZV meeting

*SUNDAY, SEPTEMBER 24TH FROM 8:00 AM – 5:00 PM*

Dallas, Texas

The theme of this year's AAZV/Davis-Thompson Foundation pathology workshop will focus on fungal diseases. Cases from pathologists from around the world will be enlisted to illustrate the topic of mycotic diseases throughout an interactive morning session. The afternoon session will include examples of the most interesting cases pathologists and clinicians have seen in recent years.

**CALL FOR CASES**

If you wish to present a case, please email a brief description of the case to Bruce Rideout: (brideout@sandiegozoo.org) by June 30th

Preference given to those cases involving fungal diseases in zoo or free-ranging wild animals

**KEYNOTE PRESENTATION:**

Emerging Fungal Diseases in Animals and Humans

Dr. Shawn Lockhart, Ph.D., D(ABMM)
Centers for Disease Control and Prevention

 tentative cost: $175 ($100 for veterinary students), which includes thumb drive, handouts, and refreshments. All participants must register for this course.

Remember that you are welcome to attend the Workshop even if you have not submitted a case.

The syllabus from the case write-ups should be available at least one week prior to the workshop and can be downloaded from the Davis-Thompson Foundation website at http://www.cldavis.org/syllabi.html. A thumb drive with the histologic case findings and syllabus will be distributed to all presenters and registered attendees (Note: The software used to create the images of the scanned slides and associated documents is only compatible with PCs, but Mac users will be provided instructions on how to access case descriptions and virtual slides online).
27th Annual Davis-Thompson Foundation
South Central Division Meeting
